TSIA2 Testing and Prep Information

What is the TSIA2?

The purpose of the Texas Success Initiative (TSIA2) test is to determine if students are ready for college-level work in the areas of reading, writing, and math.

TSIA2 Testing Prep

Mastery Prep is the program that GPISD uses to introduce what TSIA is, how the test will be formatted, and help you be successful. **You are required to complete TSIA Testing prep through Mastery Prep before TSIA testing on your campus.** You have access to Mastery Prep through Clever. You may have already started using this in your class or advisory to receive ACT or SAT prep. Your campus administrators will be able to monitor your progress and determine when you are ready to take the TSIA test.

Not completing the TSIA testing prep = Not eligible to take the TSIA test

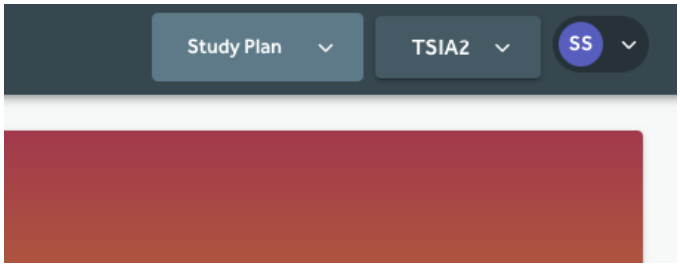

1. Begin TSIA2 Testing Prep (Mastery Prep)

To begin, you will need to access Mastery Prep through Clever login or use the Clever app on your iPad. If you have trouble, go to https://www.gpisd.org/Page/47452 and select "**How to Log in to Programs Using Clever**" to view a video on how to log in to programs on your iPad.

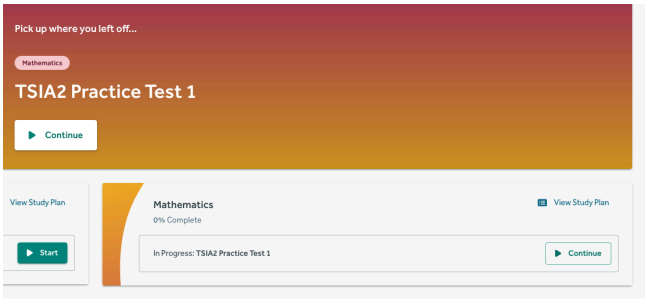

Navigate to Mastery Prep (it will be called Ready Platform and be a black graduation hat on a yellow box) on Clever through your district account. The steps below give directions for Math, but you will follow the same process with ELAR before taking the ELAR portion of the TSIA2.

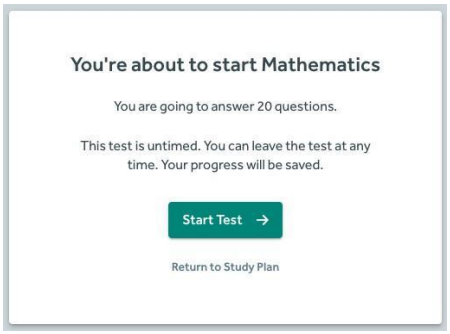

1. After loading, look in the upper right-hand corner, click the drop down menu, select **Study Plan**, and then select **TSIA2.**

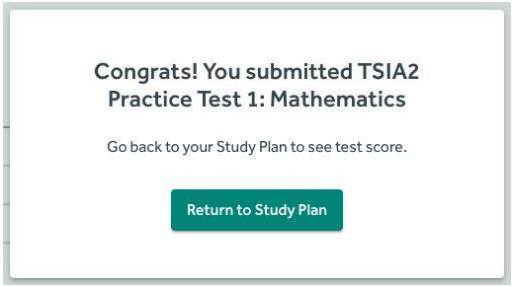

2. You will begin the course by taking a TSIA2 Practice Test. Press continue to begin the test. Press start test to open the test.

   Do your best and work on your own. Your study plan will help you more if you do your best on the test.

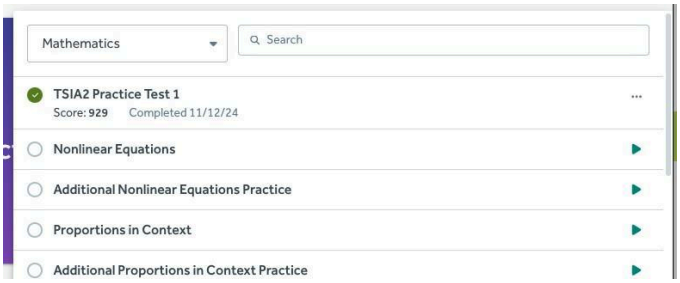

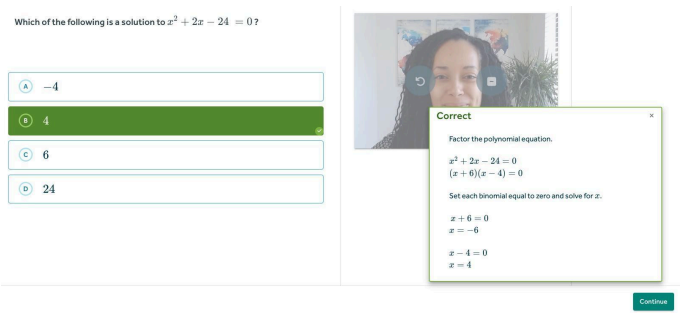

Once you have completed the test, select **Return to Study Plan**.

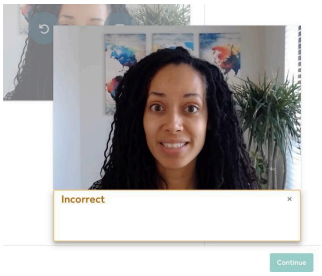

3. You will now be able to see your score and the study plan Mastery Prep made for you based on your test. You will now be able to start your TSIA2 prep for the TSIA2 test. You are required to complete 80% of the lessons that are loaded. You can view your progress with the sidebar menu that pops out.

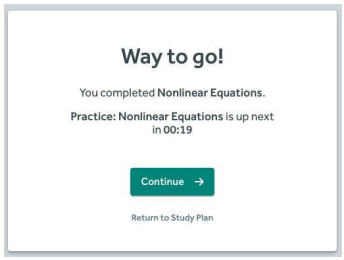

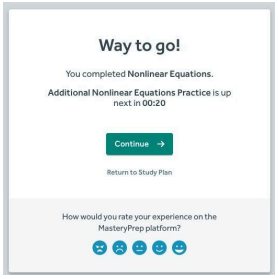

Press the green triangle next to each lesson to start completing your Study Plan. You will have videos and practice questions. If you choose the correct answer, you will see a pop-up window showing you the steps to arrive to that answer. Check your work before moving on!

If you choose an incorrect answer, a video will give you more information and allow you to choose again.

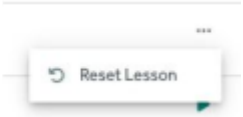

When you finish a lesson, you will see a screen letting you know the practice questions will be next. Those practice questions will test if you learned what you needed from the lesson.
You have additional practice questions if you need more.

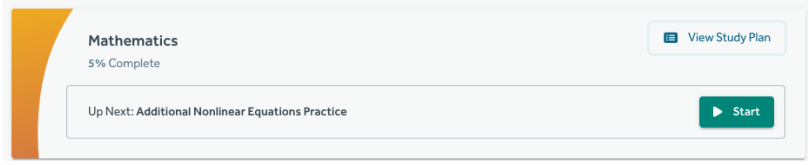

When you finish, you will see your mastery percentage. You can click on the three dots and reset a lesson if you did not pass.

Continue to work through all your study plan lessons.

4- After you complete your lessons, you will take a second TSIA2 test to see how much you have improved and if you are ready to take the actual TSIA2 test.

Math College Readiness Score- 950 or higher

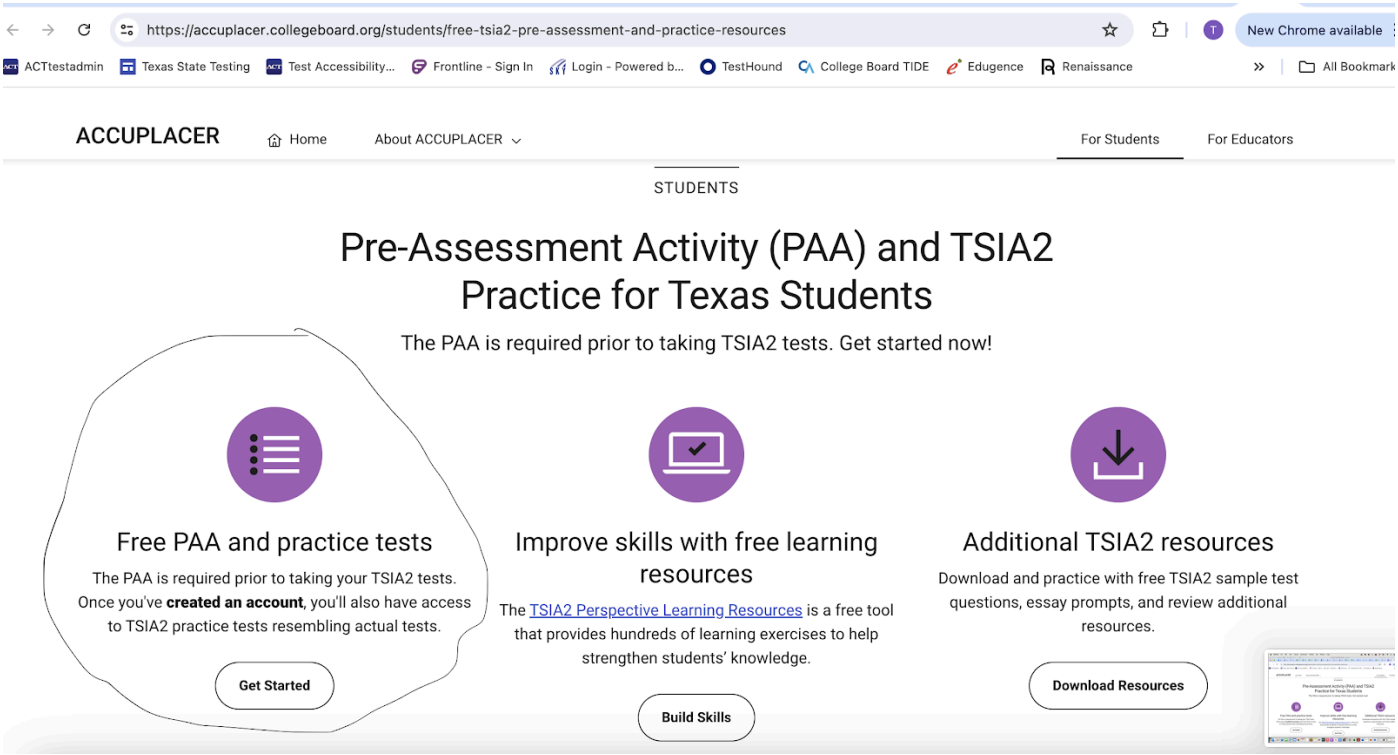

ELAR College Readiness Score- 945 or higher + 5 on Essay

2. *Submit TSIA2 Testing Prep (Mastery Prep) Completion to Campus Administrator*

Once you have completed at least 80% of your Mastery Prep lessons, you MUST complete the google form for the high school campus you attend. Please click the link to your campus below to be redirected to the form you need to fill out.

Dubiski Career High School

3. *Go to the Accuplacer Website after you have completed your Mastery Prep Lessons to create an account and complete the Pre-Assessment Activity (PAA)*

4. ***Complete the TSIA2 Documentation Form (here).*** You will upload your PAA Certificate of Completion **AND** the screenshot verifying that you have completed at least 80% of your Mastery Prep lessons in your study plan. **Documentation MUST be submitted by Monday, April 28, 2025 at 4:15pm.**
