Lammersville Elementary Online - Weekly Learning Plan

PSAT 8/9 Information

Attention 8th Grade Families,

The Lammersville Unified School District is providing all 8th-grade students with the opportunity to take the PSAT 8/9 on **Wednesday, October 21**, at Lammersville Elementary. This test is typically offered at a rate of \$20 per student, but with the support of the Lammersville Unified School District, the test will be offered free of charge.

All LEO 8th grade students will report to Lammersville School at 8:10 am for an 8:30 am test start time. Please note that you may not be late this day, as there will be no other additional opportunities for this test to be administered for this school year. LEO students will need to report to the school office so we can take the students to the testing location on site. Bring your school-issued Chromebook, mouse (optional), snack, and water, if needed.

*Please note: If you are interested in participating in the Early College Program at MHHS, you must take the PSAT 8/9.

The PSAT 8/9 is designed to be taken as eighth or ninth graders start their high school journey. Its structure, sections, and timing are the same as the PSAT 10, PSAT/NMSQT, and SAT. The Reading and Writing and Math sections measure the knowledge and skills your child is learning in school—the same knowledge and skills that matter most for college and career readiness. [See what's on the test.](#)

Benefits of Taking the PSAT 8/9

- Prepares students for the SAT and question types
- Prepares students for the PSAT NMSQT
 - Taken in 11th grade
 - Contest for the National Merit Scholarship where students can receive commendations or become finalists for the National Merit Scholarship
 - Receive recognition from College Board
 - Tied to college applications
- Compares students/skills to all other 8th graders in the country and shows rank/percentile in comparison
- Opens up free SAT access to students for study materials for future PSAT tests and SAT
 - A personalized plan to help students identify areas for growth and additional practice
- Students will receive information from colleges and potential scholarship opportunities based on their scores.

More information about the PSAT 8/9, including sample test questions, can be found [here](#). The College Board also has excellent resources, guides, and action plans to help parents plan for college.
