

Key West Event

blockdenied is at a the southernmost point in the United States of America talking about H.R. 098, bills that blockdenied has introduced, and conservationism

Hello residents of Key West and my fellow Dixieions! Back in 1908 former President and Founder of the Bull Moose Party Theodore Roosevelt established the Key West National Wildlife Refuge as a preserve and breeding ground for native birds and other wildlife to curtail the slaughter of birds whose feathers were highly valued in the hat industry. Today the Key West NWR keeps its same focus today to preserve and protect all types of wildlife.

It's very important to keep passing bills and increase our conservation throughout the United States and here in the States of Dixie, H.R. 98 that was passed and signed by the President shows that steps can be taken to preserve and teach our children about our beautiful country and how we must do our part to take care of it. But I am appalled by my opponent JayArrGee who is one of the few people that voted no in his party on this very important and tri-partisan bill, how can Dixie have a Representative that wouldn't even think about protecting nature and doing their best to fight conservation, voting for JayArrGee means that places like Key West NWR will be forgotten forever!

I have formally introduced legislation called the "Enjoy the Outdoors" Act, this bill will give our children and those with them free access to federal lands where they can enjoy beautiful places and learn about these places year round throughout their childhood. Isn't this want we want for our children? We need to show the wonders of America and how beautiful and magnificent she is, as well as teaching them of the importance of protecting the environment and reversing climate change.
