| Jul 2017 | Ice Resistance | The Emperium of Wynn | <ul style="list-style-type: none"> 2 July 2017, Titans Valor was established as a community guild by IceResistance, with the remains of FieryFrost. The guild would be given an invitation to The Emperium of Wynn [TEoW] alliance. | |
| Aug 2017 | | | <ul style="list-style-type: none"> Early August, Titans Valor would officially enter the Emperium of Wynn; a community alliance. Guild officials would achieve positions within the alliance quickly, and be introduced to the guild community. | |
| Sep 2017 | | | <ul style="list-style-type: none"> 28 September 2017, ANO forms a non-aggression pact with SDU, later inviting them into TEoW | |
| Oct 2017 | Ice Resistance | War Syndicate Alliance | <ul style="list-style-type: none"> IceResistance would win the election of Community Triarch against the leader of SDU, in part prompting them to leave the alliance and join the newly formed War Syndicate. Tensions would grow as he would argue to give more power to the High Council of the alliance of which he was speaker of. 18 October 2017, Titans Valor was removed from the alliance in an undemocratic process. This would spark other guilds to leave the alliance. In an attempt to prevent this, Titans Valor was invited back, though the invitation was denied. TEoW was dissolved. War Syndicate would invite Titans Valor and end Hax's reign over the map, which had lasted over a year due to glitches in the war system. The ocean territories would become our claim, and the Wynn mainland remaining unclaimed by the alliance. 14 October 2017, the guild thread is recreated. 18 October 2017, Coalition alliance would form. 30 October 2018, The Titans Valor Shop is established on forums. | |
| Nov 2017 | | | <ul style="list-style-type: none"> 3 November 2017, Titans Valor would adopt an Imperial hierarchy. 23 November 2017, Coalition holds all of the Wynn province mainland. Tensions between Coalition and War Syndicate would begin to grow. | |
| Dec 2017 | | | <ul style="list-style-type: none"> 15 December 2017, the guild achieves max level of 51; levels are capped at this time. 16 December 2017, the Winter Festival takes place, our first large-scale event. 21 December 2017, the Coalition alliance would declare war which would initiate the Gavellian Invasion, one of the largest assaults in guild history. 23 December 2017, three guilds leave War Syndicate, leaving the others to abandon the defense of Gavel. 24 December 2017, Titans Valor forms the Aphelion alliance hearing word that Coalition would be leaving Wynn province untouched as their predecessor had, which would shortly fall when Coalition plans changed and the land gained by the alliance was infiltrated. On Christmas day, Coalition forces would finally obtain all territories on the map between their allied guilds, and surrendered parties. | |
| Jan 2018 | | | <ul style="list-style-type: none"> 1 January 2018, a massive assault is launched on Hackforums by War Syndicate taking 40 territories, although the attempt is quelled by morning. The remnants of War Syndicate bind together to assault the Coalition alliance, although it would not be considered an official alliance until soon after, adopting the name Illustratus. | |
| Feb 2018 | | | Federation | <ul style="list-style-type: none"> 5 February 2018, Titans Valor would adopt a medal system to award its members. 10 February 2018, a treaty is formed assaulting Kingdom Foxes 16 February 2018, Federation is born following the leave of HackForums, Paladins United, Emorians, Kangronomicon and House of Sentinels from the Coalition alliance, resulting in the remaining guilds merging with Illustratus. 16 February 2018, the same day of Coalition's split, the guild would establish a sub-guild named Illustratus [Ius] in honor of the alliance. 19 February 2018, Federation takes control of the map from AA; the guilds who left Coalition. 21 February 2018, ANO is assigned Light Realm, northeast ocean, and Rymek. |

Apr 2018

May 2018

- Following our removal from the alliance, we would join CGoW, an alliance composed of guilds opposing Federation.

- 25 July 2018, ViT and HoF exit Federation after their Karaoke event following our leave and partner with CGoW.

Aug 2018

Sep 2018

- Seeing an attempt to bring down the Federation is futile, we apply once more to the Federation. We are denied.
- 9 September 2018, a treaty was made with the Federation alliance looking to increase our odds of readmission into the alliance.
- 19 September 2018, we once again rejoin the Federation, committing to be loyal to the alliance and to not leave again.

Oct 2018

- 29 October 2018, THI, Oys, TNA and Fux leave the Federation causing instability.
- 30 October 2018, DsQ is kicked out of the alliance.

Nov 2018

- 1 November 2018, we are assigned the ocean territories.
- 10 November 2018, Imperial leaves the Federation leading to the collapse of the alliance as guilds follow.
- 11 November 2018, ANO and Oce split the ocean for mutual defense, and we're on peace terms with Valk and Aesir.
- 15 November 2018, PUN claims the ocean forcing us to mainland Wynn. We claim the Nether Gate region, and Imp gives us Nesaak transition.
- 16 November 2018, we annex the Time Valley region into our claim, expanding deeper into mainland Wynn.
- 20 November 2018, we initiate a policy of neutrality in which we will respect the claims of those who respect ours.
- 21 November 2018, we raid Imperial's Nesaak claim, ending in peace and the recognition of our claims in Wynn.
- xsm raids our claim consistently for a few days, though neutrality is reached to an extent on the 27th.

Dec 2018

- 6 December 2018, the Detlas suburbs were wrestled into our control and added to our claim.
- 11 December 2018, Thanos is given to us after an agreement with TNL to share Hive and Thanos following THI ceding the territories.
- 12 December 2018, we temporarily drop our claims to focus on war with our enemies and Fox, returning to our claim on the 13th after disputes have been settled.
- Our annual Winter Festival takes place on the 14th.
- 14 December 2018, we annexed Ragni and Nivla forest. Shortly after we gave Ragni to BLA, not wanting to maintain the region.
- 20 December 2018, Ternaves and the abandoned mines region is claimed after BLA cedes it to us.

Jan 2019

- Following negotiations with Imperial to withdraw from Nesaak and expand more in Gavel, Imp cedes the Nesaak region in its entirety trading it for SDU and IBT's canyon claims.
- 2 January 2019, NzT takes the initiative and claims Nesaak, though agrees to give us the right to hold it in their stead if they are attacked.
- 4 January 2019, NzT agrees to let us have Nesaak as they enter a hiatus. Having control over the Nesaak region, we withdrew from the majority of our mainland Wynn claim that extended from Time Valley to Ternaves, satisfied with our new domain.
- SDU and IBT, who had traded their canyon claims for Nesaak, pressure us in our new claim. We remain in control, although their presence remains.
- 21 January 2019, we declared war on DsQ after several breaches of neutrality.
- 24 January 2019, BLA takes advantage of our war with DsQ and claims our territories above Nesaak under the pretense that DsQ was in possession of them, beginning tensions between us.
- 28 January 2019, after failed negotiations for the return of our stolen claims, war is declared on BLA and the SOL alliance acts in assistance.
- 29 January 2019, we were victorious, and as penalty, BLA returned our claims in addition with other territories as reparation for the war. In return for their compliance, SOL respects their canyon claim, although creates peace on their own terms.

Feb 2019

- 13 February 2019, we retaliate against THI after they violate our claim, again. They hold claim to Nesaak, leading to an ongoing war. Due to the time zone difference, both parties end up holding it split times of the day. We outlast THI, successfully securing our future with Nesaak as our claim.
- 15 February 2019, we temporarily return to war with BLA as SOL is not satisfied with their recent expansion, including the discovery of a possible plot against us. The battle erupts in war with both BLA and BCr after we make a preemptive attack on BCr following a threat to attack us if we continue to pursue BLA.
- 12 March 2019, we left SOL finding staying was not in our favor any longer.

Mar 2019

- 15 March 2019, BCr, BLA and Hax initiate a war on our claim seeking to split Nesaak among themselves. Hax quickly steps out of the scene, and BCr stops later abruptly, leaving BLA to war alone. Retaliating with several sub-guilds, we ward them off resuming neutrality.
- 16-18 March 2019, several guild members go to TheNewEden to attack BLA and BCr for their attempt to divide our claim.

Apr 2019

May 2019

Jun 2019

- 14 June 2019, BCr strikes our claim, in which we retaliate with ECP. Seeing the attack was not of any major plot, and that we had retaliated, it was considered even.
