### **The Annual General Services Staff (GSS) Appreciation Lunch 2021**

The GSS Appreciation Lunch is a whole school event where our CAC community come together to show appreciation for our hard-working teams by organizing an appreciation lunch relying on the generous donations of our community. The event was initiated by *Han Byul Lee*, a fourth grade student in 2013 who is an alum. Ever since then, it has become an annual CAC tradition that all our GSS look forward to.

Our GSS are the security guards, janitors, gardeners, bus monitors, drivers, car washers, electricians, painters & carpenters. A total of 149 staff members.

Last year due to COVID restrictions we organized packed meals and it was highly appreciated by the GSS accordingly, we will follow the same event design.

To know more about this event, please find below links from last year:

### **Looking for Volunteers! Elementary ASA Program**

"Elementary after-school activities are fun, optional activities scheduled from 3:15-4:00 on campus every weekday except for Tuesdays. Activities are offered to grades K-5

We offer a range of choices to enable students to explore their talents and interests.

These activities develop useful life skills, such as responsibility, teamwork, communication, creative thinking, and self-confidence. We were really blessed to have our first ASA season this year. Volunteer engagement would be much appreciated.

### **NEWS!** CAC Donations Delivered to the Homeless Shelter

On Saturday Oct. 2nd, CAC volunteers (Staff, PTO, Booster club and administrators) delivered CAC donations to the **Maana L enkaz Ensan Homeless** homeless shelter located in Boulak, Cairo. The donations were Arabic books, carpets, boards from the ES division, clothing and canned food from the HS Spirit week in addition to other donations by the community members.

**"Maa'na Lenkaz Ensan"** means "together to save a human being". The founder, **Mahmoud Waheed** who is an engineer started this foundation in 2013 with the dream to provide a shelter for anyone who had no place to go to and was forced to stay in the street. The organization works on the transformation of a **homeless person** into becoming a **productive human being**.

The shelter for the elderly is placed close to the kids' shelter for the purpose of creating a family design that both groups need. Check this [video](#) to enjoy the beautiful relationships between grandpas/grandchildren To know more about the shelter, please check this [video](#).
