##### \* Liaison Updates:

- \* OSI + OPA: Tobie reported that there are no updates from these groups. Director elections concluded recently and were announced.
- \* Unicode / MessageFormat: Eemeli provided an update based on the issue below.
- \* W3C: AB nominations for election opened yesterday and are open through the end of April. AC Meeting is next week (Japan).
- \* TAG: Call later today with the W3C Team to talk about the appointments that the staff have made. Issue is mainly we need people who are qualified and also willing to sign up for the work. Possible idea for us to write some supporting article about this group.
- \* TC39: Plenary meeting is next week - #101! New TG had its first meeting last week - Conveners are Mikhail and Yulia. Target the 30th. Lots of cool proposals being updated on the agenda - pattern-matching, signals, promise.try & regex & other helper methods

\* TC53: Donovan was not available to give an update

\* EAO: `Intl.MessageFormat` stuck:

<https://github.com/tc39/proposal-intl-messageformat/issues/49>

\* Eemeli gave a summary of the situation with this proposal

\* Eemeli may request travel funds to support unblocking this proposal; Ujjwal is also a potential champion

\* Task list for converting from WG to Collab Space

[#253](<https://github.com/openjs-foundation/standards/issues/253>)

- AI is to Jory to update the repos

\* Document Guidance for requesting travel funds for Standards WG-related activities

[#256](<https://github.com/openjs-foundation/standards/issues/256>)

\* WIP - Improvements toward Addressing #173

[#240](<https://github.com/openjs-foundation/standards/pull/240>)

\* Define terms for SME Participation

[#173](<https://github.com/openjs-foundation/standards/issues/173>)

## ## Q&A, Other
