5. Then, in the search bar again, search for “Bruin Formula Racing,” and repeat step 4 for our specific workspace.

6. From there, we will accept you into our Slack! You should see all the subteam channels and all the general channels (announcements, general, introductions, etc.)
7. We highly recommend downloading the Slack Desktop app so you don't have to use your browser. You should be able to log in to your g.ucla.edu account inside the app and access the Slacks you joined from the web browser.

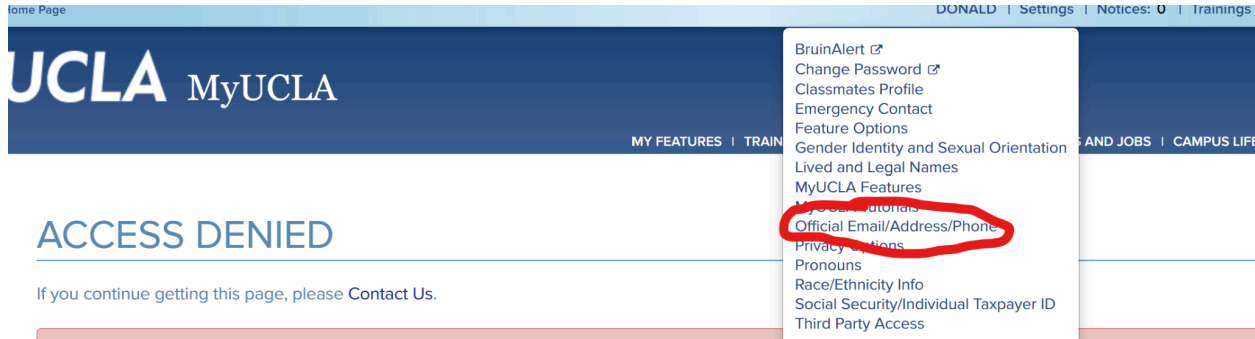

From Mobile:

1. Lowkey it should be the same steps as for Desktop outside of downloading the Slack app from whatever app store you use. You just need to be sure that the email you logged in with is **@g.ucla.edu** and not just **@ucla.edu**.

Troubleshooting:

1. If you are able to get on the Slack on your computer but not on your phone, follow these steps:

- a.
2. If nothing is working, navigate to my.ucla.edu, log in, and go to Settings > Official Email Address/Phone

Then edit your Official Email to be your **@g.ucla.edu** email. Make sure it is not **@ucla.edu** or **gmail** or anything other than **@g.ucla.edu**.
