

MSD (Moderate to Severe Disabilities) Cadre

The GRREC MSD (Moderate to Severe Disabilities) Cadre aspires to support new (0-5 year) teachers who serve students with low-incidence disabilities through a combination of professional learning and coaching opportunities. This yearly closed cohort of teachers from the GRREC SERTAC area will gain knowledge around high-leverage and evidence-based practices to support their learners.

This professional learning opportunity is part of a closed cadre and is available by invitation only. For more information, please contact Stacie Hutchison via email.
