This is the standard font and layout for the individual paragraphs. Replace this text with your text. Single-space your text in single-column format justified at both sides. Use 12-point Times New Roman typeface with single spacing for the main text. Place one space between paragraphs [1]. The inclusion of figures, tables and schemes is encouraged to enhance understanding. References should be indicated in the text using Arabic numerals enclosed in square brackets [1] and listed at the end of the text following the standard Science Citation Index format. Captions and references, if included, should be written in a 10-point font size. The acknowledgment can be added after the main text.

Format the document with 1-inch margins at the top, bottom, left, and right. The abstract must fit on one page. Boldfaced font style is used only for the paper title and References. Use one line of space between the title, author(s), affiliation(s), abstract text, acknowledgment and References [2]. Please rename this template as “[presenting author Last Name].docx” (e.g. Last Name.docx).
