Email Body:

Hey [NAME],

Quick heads up.

Tomorrow at 10am EST, something drops that I think you'll want to see.

It's called AI Profit Blueprint, and it's basically the guide I wish existed 6 months ago when I was trying to figure out how to actually make money with AI tools.

Not "10 cool ChatGPT prompts" stuff.

Actual business methods. The kind where you do the work once and it pays you multiple times.

Here's what makes it different:

Everything works with FREE AI tools (ChatGPT, Claude, etc - no subscriptions needed)

10 complete methods - not tips, actual step-by-step systems

Built for beginners (if you can copy-paste, you can do this)

No tech skills, no coding, no complicated setup

The creator, Ajie, was grinding 14-hour days until he figured out these methods. Now he's sharing the exact playbook.

I'm sending you the link tomorrow at 10am EST sharp.

If you've been wanting to do more with AI than just chat with it, watch for my email.

Talk soon, [YOUR NAME]

P.S. - Launch price is only \$17. After launch it jumps to \$27. Just FYI.

DAY 2 - PATTERN INTERRUPT

Subject Line Options:

- Why AI feels useless (and how to fix it)
- The real reason ChatGPT isn't making you money

- Everyone's using AI wrong

Email Body:

[NAME],

Real talk.

You're not bad at business.

You're not "not technical enough."

You're not too late to AI.

You just don't have a system.

That's it.

Most people open ChatGPT, ask it random stuff, get mediocre results, and think "this isn't for me."

But that's like sitting in a Ferrari and complaining it won't move... because you never put it in drive.

AI Profit Blueprint is the instruction manual: [YOUR LINK]

10 complete systems. Not prompts. Not tips. Complete business methods.

Each one shows you:

What to build How to build it (step-by-step) Where to sell it What to charge How to get your first customer

The creator Ajie was exactly where you are 18 months ago. Grinding hard, spinning wheels, going nowhere.

These methods changed everything for him.

Now he's handing you the playbook for \$17: [YOUR LINK]

Works with free AI tools. Zero experience required.

Stop playing with AI. Start profiting from it.

[YOUR NAME]

P.S. - This price goes up soon. Lock in \$17 while you can.

Some are setting up their first digital products.

Others are landing their first AI service clients.

A few have already made their first sales.

All within 48 hours of getting access.

Why so fast?

Because these aren't theoretical strategies. They're plug-and-play systems.

You literally watch the training, follow the steps, and start building.

Here's what you're getting:

10 complete business methods Video walkthroughs for each one Ready-to-use templates and prompts Real examples you can model Pricing guides so you know what to charge

Everything designed for beginners. No tech skills. No experience required.

Still only \$17: [YOUR LINK]

But I'll be honest - this price won't last much longer.

Ajie mentioned the plan is to raise it to \$27 after launch period ends.

If you've been on the fence, now's the time.

DAY 4 - FUTURE PACING

Subject Line Options:

- 30 days from now...
- Where will you be in a month?
- Two paths (choose wisely)
- The gap is widening
- This time next month

Email Body:

[NAME],

Picture this.

It's 30 days from now.

Scenario 1: You're still "going to learn AI someday." Still watching from the sidelines while others build income streams. Still doing everything manually while competitors zoom ahead.

Scenario 2: You've got 2-3 AI income streams running. You're using free tools to build products, deliver services, or create content that actually pays you. You're finally ahead of the curve instead of chasing it.

The difference between these scenarios?

One decision. Today.

AI Profit Blueprint gives you the complete system: [YOUR LINK]

10 proven business methods. Step-by-step training. Ready-to-use templates.

Everything you need to go from "playing with ChatGPT" to "building real income streams."

\$17 gets you lifetime access to everything.

The question isn't "can I afford this?"

The question is: "Can I afford to keep falling behind?"

Your competitors aren't waiting. The gap gets wider every day.

Get the blueprint: [YOUR LINK]

Start today. Thank yourself in 30 days.

[YOUR NAME]

P.S. - Still backed by a 14-day guarantee. All the upside, none of the risk.
