

TERMS OF SERVICE

!! Please read the TOS thoroughly before contacting me, get acknowledged with the price range and examples of my work. I need to be sure that you're comfortable with my art style and TOS.

!! My art style doesn't imply sharp lines and extreme neatness, please consider this when commissioning me. I don't do pieces out of my style. By commissioning me you agree that you've got acquainted with my gallery and you're perfectly fine with my art style.

!! English is not my native language. I understand you perfectly, but can be slow to reply.

1 General information

1.1 How to claim a slot

Send me a DM/message via Discord (vezar76) or Telegram (t.me/vezar76) with the following information:

1. Preferred pricelist option (gradient/full color, half body/full body etc.);
2. Visual references; these can include art, pictures, photos or anything that is related to the commission and can help me with understanding your vision of the final result (references of your character, clothing, background etc.);
3. Overall idea, concept and desired atmosphere; please provide a detailed description of what should be drawn (the scene, pose, character's expression etc.).

1.2 Working process

1. After receiving your message, I will discuss the idea with you. Then I tell you the price and start working on your commission. At this stage you need to be sure that you provided a fully-fledged idea, since the final result depends on your description quite a lot. If any of the details are missing from your description, I have the right to improvise. Since commissioning process relies heavily on a dialogue, it's in your best interest to get the desired result. Please try to stay in contact with me and reply to my messages.
2. Full prepayment is done after I accept your commission.
3. After receiving the payment, I start working on your piece. I send you a rough sketch for the approval. For a full body I can do a couple rough pose

sketches. On this stage, you can request 3 free fixes done to the artwork. Please pay attention to this stage, since main parts of the artwork won't be changed after the sketch is approved. If there's going to be more than 3 fixes on this stage, I'll charge you for them individually.

4. I continue to work on your commission. I'll be sending you process pictures during this stage so we can clarify some details, color choices etc.
5. After finishing the commission, I'll send you a final variant of the artwork in full resolution. Please note that any fixes to the completed artwork are possible for additional charge only. I don't make any alterations to the finished piece if it hasn't been discussed/paid beforehand.

1.3 Contents of artwork

1.3.1 I will draw:

- Humans: any age, any complexion; anime style/semi-realism.
- Anthro: furrries, bipedal species.
- Ponies.
- Safety ratings: sfw, nsfw, gore, moderate fetishes (discussed individually).

1.3.2 I **WON'T** draw:

- Realism: portraits based on photos, real people.
- Mecha: transformers, cyborgs, robots, complex tech, weapons.
- Hardcore fetishes, children, feral, heavy stylization, monsters.

1.3.3 I have the right to decline your commission due to following reasons:

- I'm not comfortable with the character.
- The idea goes against my own beliefs.
- There is no visual reference provided.

2 Fixes

First 3 fixes on the sketch stage are included in the commission's price.

Any fixes above that amount will be charged individually. Please note that any fixes to the finished artwork can only be done with additional payment.

3 Payment

I accept full prepayment.

Payment via PayPal - vezar76@gmail.com (paypal.me/vezar7)

Backup payment method - Boosty (boosty.to/vezar)

(Check [Boosty payment guide](#) chapter)

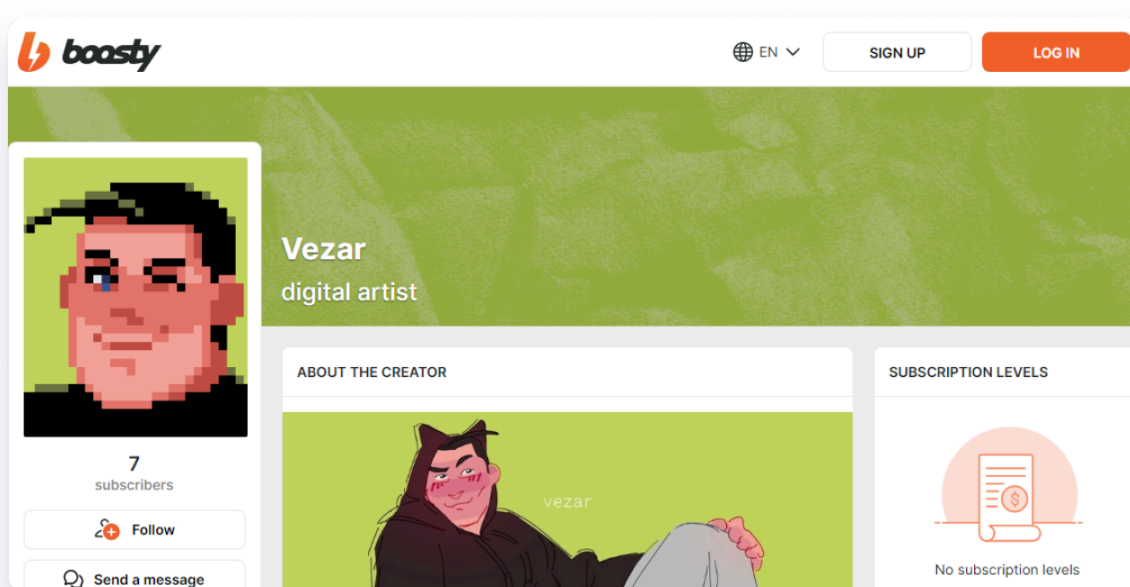

After I start working on your commission, you still have the right to get a refund; refund's amount depends on the amount of work I've already done. If you've just paid me and I haven't started the work yet, you can get a full 100% refund; if the artwork is already in the process, you can get a refund of 50-80% of the original sum depending on how much I've done. After the artwork is finished, getting a refund isn't possible.

3.2 Boosty payment guide

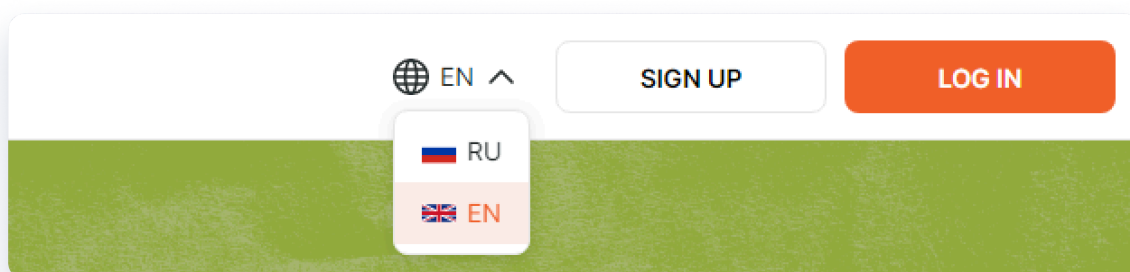

Boosty is an alternative to Patreon and a great way for creators to get donations and payments for their content.

Payment guide:

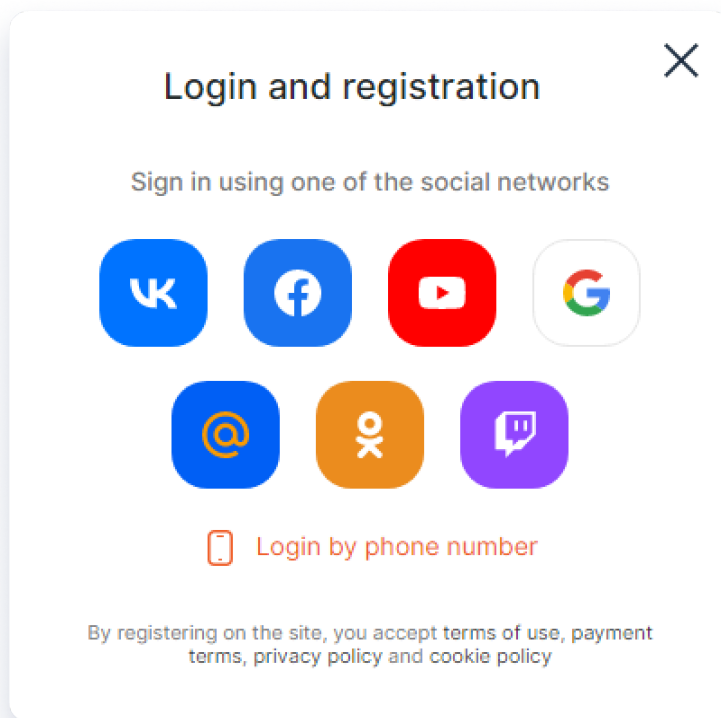

1. Go to my Boosty page - boosty.to/vezar
2. Fill out the donation form on the right side of the page.

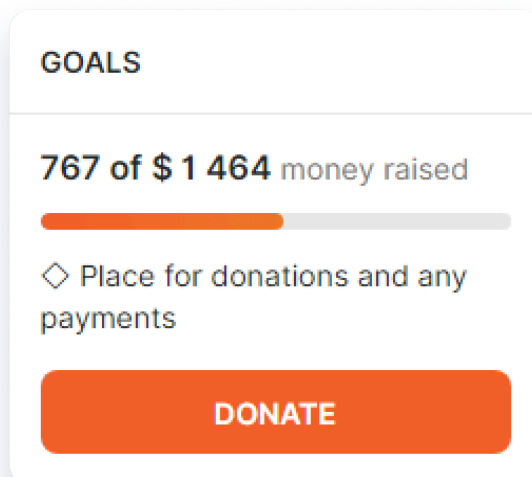

3. If necessary, change language to English at the top of a page.

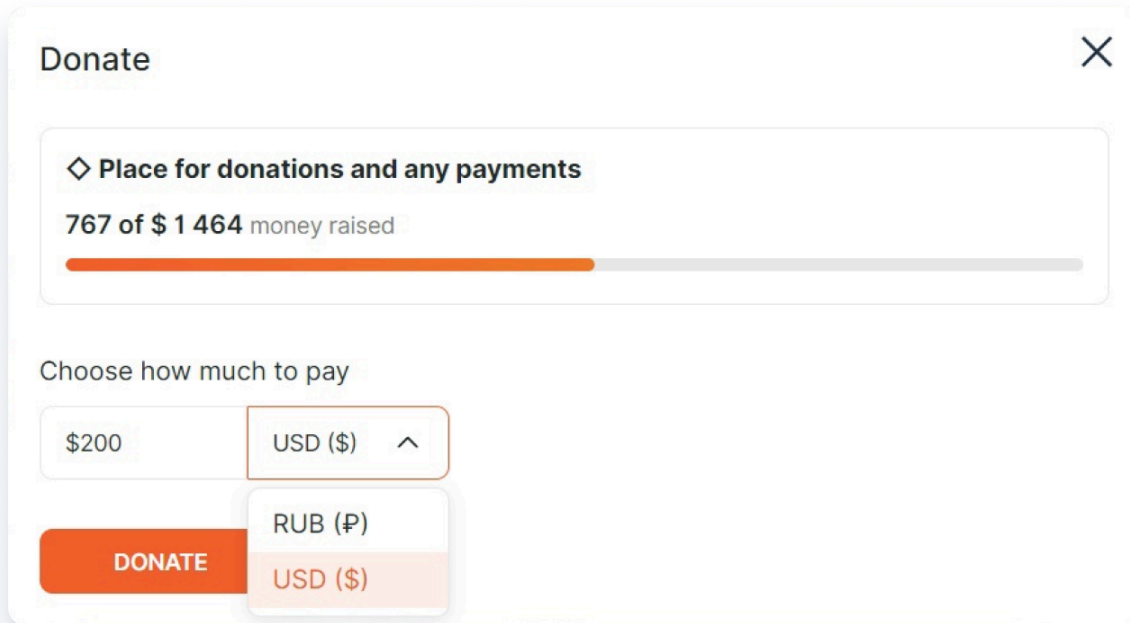

4. If you don't have a Boosty account just use a Google account or a phone number to log in to proceed.

5. When logged choose a goal on the left side of the page and use the "donate" button.

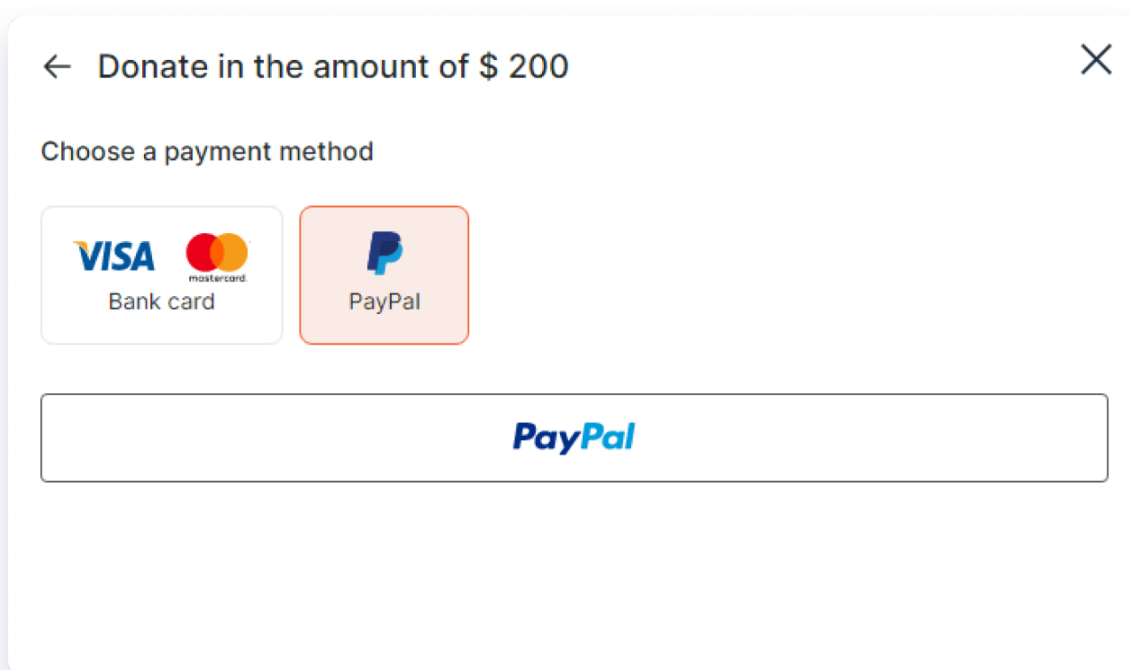

6. In the donation window choose “USD” as currency and enter the sum.

The screenshot shows a 'Donate' window with a close button (X) in the top right corner. Below the title, there is a section titled 'Place for donations and any payments' with a progress bar indicating '767 of \$ 1 464 money raised'. Below this, the text 'Choose how much to pay' is followed by a form with a text input field containing '\$200' and a dropdown menu currently set to 'USD (\$)'. A second dropdown menu is open, showing options for 'RUB (₽)' and 'USD (\$)'. A red 'DONATE' button is positioned to the left of the second dropdown menu.

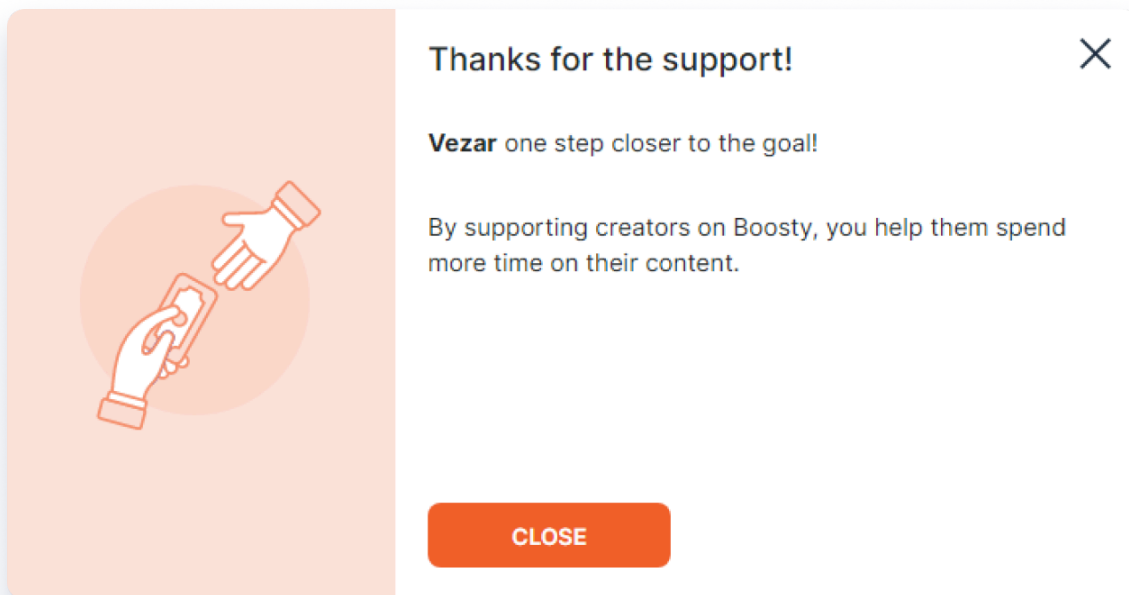

7. Choose the payment method you'd like to use and proceed with the payment.

The screenshot shows a 'Donate in the amount of \$ 200' window with a back arrow and a close button (X) in the top left and right corners, respectively. Below the title, the text 'Choose a payment method' is followed by two buttons: 'Bank card' (with VISA and Mastercard logos) and 'PayPal' (with the PayPal logo). The 'PayPal' button is highlighted with a red border. Below these buttons is a large button with the 'PayPal' logo.

8. Pay for the donation with your chosen payment method.

9. You're amazing, the payment went through!

If you're having troubles with the payment:

1. Disable VPN if you are using one.
2. If you are using Firefox switch to Google Chrome.
3. Boosty can have troubles with USD, so change currency to RUB, convert required sum to RUB using Google conversion rate or ask me for it, enter sum in RUB and proceed with payment.
4. Boosty can have difficulties with processing payments larger than 100 USD, divide required sum in parts and send them separately.

4 Deadline

The deadline is discussed individually depending on the commission's complexity.

- Expected deadline for a no color is 2 weeks;
- for a fully colored artwork it's around 1 month.

Depending on my workload and your commission's complexity, it can be finished sooner.

5 Copyright

By commissioning me, you agree to the condition of me publishing the artwork to my galleries and posting it on other social media and art platforms while providing a link to your profile as a commissioner/character owner.

The finished artwork belongs to you, although you can't erase my signature, edit or alternate the artwork in any way.

Every artwork is done for personal use only. If you want to commercialize the artwork, you need to state that in the commission's description first. I'm also open to drawing postcards, stickers and any merchandise of such kind. All preparation materials, visuals and sketches, including all electronic files used to create the artwork remain the property of me.
