

Science 4

Changing Earth: Landforms

Science 4 Curriculum

Power Objective

P.O. #1: Explain how Earth's surface has specific characteristics and landforms that can be identified. (P.O. #1 Proficiency Rubric)

Academic Vocabulary

- ☐ streams
- ☐ deltas
- ☐ floodplains
- ☐ valleys
- ☐ sinkholes

- ☐ caves
- ☐ canyons
- ☐ glaciers
- ☐ dunes
- ☐ Springs

- ☐ volcanoes
- ☐ islands
- ☐ ground water
- ☐ topographic map
- ☐ aerial map

Enduring Understanding

Students understand that...

- Earth's surface has specific characteristics and landforms that can be identified.

Essential Question

- What factors must exist for landforms to form and change?
