### **Article Information:**

Submitted:

Revised:

Accepted:

Keywords:  
Abdcd, efgh, ijkl

### **Keywords:**

Maximum of 5 keywords, separated by commas and arranged in alphabetical order (Times New Roman, 11 pt).

---

### **Abstract**

The abstract should be less than 250 words. It consists of sentences which at least describing background of study, purpose of writing the article, research methodology, results and findings, and conclusions, times new roman, font 11.

---

## **1. INTRODUCTION**

The article should be prepared in softcopy format using A4 paper size. The margins (top, bottom, left, and right) must be 2.5 cm. (Articles that do not follow the template will not be accepted; therefore, it is recommended to write directly in this template).

The font should be Times New Roman, size 12, with single spacing.

Use automatic hyphenation and spell-check (if available). Each article will be checked for plagiarism (maximum allowed is 25%). Authors can submit and register their articles through the URANIUM Journal's online OJS system on the website (Situmeang et al., 2024).

## **2. METHOD**

This section outlines the type of research, the variables/description of the research focus, location, population and sample/informants, main materials and tools, data collection techniques, and data analysis techniques. The font should be Times New Roman, size 12, with single spacing.

## **3. RESULT AND DISCUSSION**

The results and discussion can be presented in tables or graphs to clarify the findings verbally. This section is the most important part of the entire scientific article. The purpose of the discussion is to address the research problems, interpret the findings, integrate the research results into the existing body of knowledge, and formulate new theories or modify existing ones. The discussion should logically elaborate on the findings and is strongly recommended to be supported by relevant references. The font should be Times New Roman, size 12, with single spacing.

#### **4. CONCLUTION**

The conclusion should provide a concise summary of the research findings and discussion. It should present the results as answers to the research questions or as a reflection of the research objectives. Furthermore, the findings should offer suggestions or contributions to practical applications and/or the advancement of knowledge. The conclusion must be written in paragraph form, not as a numbered list. The font should be Times New Roman, size 12, with single spacing.

#### **5. ACKNOWLEDGEMENTS (optional)**

Acknowledgements are addressed to the funding agency or any relevant parties who contributed to the research

#### **REFERENCES**

The reference list must consist of at least 15 sources from the last 10 years, prioritizing references from international and national journals. It is not recommended to cite sources from blogspot, wordpress, or personal websites with unclear authorship and credibility. The reference format should follow the APA style (American Psychological Association) and be managed using citation software such as Mendeley. References should be listed in alphabetical order.
