

PART 2

Reflections: Homelessness Stats

How would you describe the level of homelessness in your area?

How much do you know about the causes of homelessness in your area?

Do you think that you have good ways of identifying people at risk of homelessness in your area?

Write answers here...

PART 2

Reflections: Support Needs

In your experience, what percentage of people experiencing homelessness in your area also have a support need for addressing problematic substance use?

Do you collect information about the type and quantity of drugs or alcohol people experiencing homelessness are using?

Write answers here...

PART 2

Reflections: Service Overview

How confident do you feel knowing where to refer someone who would like to address their substance use? How long might they wait before they can access a service?

Do you feel like people in your area have a choice of services when they want to address their substance use?

Do you feel like there is a good mix of services available in your area?

***Do you know what the services
in your area feel like?***
