The Aqua Weed Stick was designed for one thing, making weed removal quick, easy & more efficient than ever. The patented design is made for cutting, scraping, pushing, pulling & hooking weeds, algae & zebra mussels off your boat trailer.

The idea for the Aqua Weed Stick was built out of frustration with how difficult and time consuming it was to remove weeds after a day on the lake and a passion to keep our public waters available for generations to come.

Discount code is HSBass2022 on our weed sticks and trailer mounts (Stations are not included in this discount)
