

Treasury of DAO Brussels

Crypto - Multisig

DAO Brussels operates a multisig for its on-chain funds on Ethereum mainnet and Polygon mainnet.

[Funds on Ethereum mainnet](#) (eth:0x0a26e479BaCe7D97c679b9b1de0fF606739Dafa2, daobrussels.eth)

[Funds on Polygon mainnet](#) (matic:0x0a26e479BaCe7D97c679b9b1de0fF606739Dafa2)

WARNING: multisig addresses are smart contract wallets! While our ETH and MATIC multisig currently have the same address, we do NOT have multisigs deployed on other EVM-compatible chains. If you send crypto to a chain other than the ones mentioned above, the funds will likely be lost! Note that this works differently from EOA addresses.

Donations welcome ❤️ Please cross-reference the address with ENS and double-check that you're on the right network before making a transaction! Next, share in [Discord](#) that you started contributing (and why, if you feel like it). We love to thank you, and celebrate with you! 🎉

Current Signers

Last updated on **2024-01-16**:

- Bruno
- Xavier
- Dries
- Matias
- [Mariano](#)
- Thomas

Three out of six people need to sign a transaction before it can be executed.

Crypto - @cryptobar account

When you use [Citizen Wallet](#) at our events to e.g. pay for a drink, the Zinnes end up in our [@cryptobar wallet](#).

[View current balance, incoming and outgoing transactions of @cryptobar](#)

NOTE: If you view our @cryptobar wallet in a block explorer, you'll notice multiple Zinne tokens. You will always be able to [consult the correct contract address here](#). The other tokens are decommissioned versions of the contract. Their balances were accounted for when migrating to the latest contract, meaning they are zero for all intents and purposes.

EUR - Open Collective

DAO Brussels is also a collective on Open Collective, hosted by Citizen Spring ASBL. The ASBL holds fiat money on behalf of DAO Brussels, and helps us with on- and off-ramping crypto.

[Open Collective Dashboard](#)

Anyone can submit expenses and at least one admin (other than the submitter) needs to approve before the ASBL will carry out the fiat transaction in our name.

Donations welcome ❤️ Let us know in [Discord](#) that you started contributing (and why, if you feel like it). We love to thank you, and celebrate with you! 🎉
