

10.4.24

AT&T UPDATE: We did have an AT&T engineer onsite Wednesday. They continue to troubleshoot the outage in River Hills. Thank you to everyone that has called or emailed us...we have turned all your names/addresses into my contact as well. They have told us that your hot spots work, s

YORK COUNTY WATER UPDATE: Same as yesterday...York County has sent off a water sample for testing and are currently calling the lab. Once the results are back, they can repeal the boil water advisory for the Cove Road area. Others with discolored water...I am told there has been a large amount of surface water that makes it way into the water center. The discoloration is normal after a heavy rain event and is not dangerous.

FROM MAINTENANCE: Maintenance has been tackling the neighborhood one street at a time. If your sticks, branches and leaves have been removed, please do not put another pile out immediately. It may be 3-4 weeks before your street is serviced again. Until ALL streets have been tidied up, we will not start back over. **Today we have gotten Holly Berry, Heritage and Pine Knoll so far...Heritage Court and Cove are next...if we can, we would love to get Commodore today. We will have some of the crew working tomorrow as well.**

LEGALLY SPEAKING: In South Carolina, if a tree falls on you, it is your responsibility to clean up (unless you have alerted your neighbor in writing that you are concerned about that specific tree). The property line is where the responsibility changes...some trees are shared once they've fallen.

DO YOU HAVE A TREE YOU WOULD LIKE TO REMOVE? ALL upright trees must be reviewed, approved and logged in our tree removal log. Rick and I review trees

daily...just call the office to get a work order generated. If it's a no-brainer, you'll have a permit the next day in most cases.

TGIF!

Amy
