### **Construction Update**

- Masonry walls for the new multipurpose room are nearly complete. The one wall was left out so they could drive heavy equipment into the gym. They will start to complete this wall now so the roof steel can be placed.
- The contractors are continuing to insulate the foundation walls and backfilling around the two-storey addition. Concrete block walls for the stairwells will start this month.
- We're still waiting for the structural steel columns, beams, and joists to arrive.
