## 1: CONTENT CREATION

Create a comprehensive article about the keyword: INSERT KEYWORD  
Article format: INSERTTYPE

Make sure you include the keyword in the first sentence.

Make it engaging, easy-to-understand, and unique. Make the content punchy and engaging by using a conversational tone, incorporating real-life examples, and taking a storytelling approach.

NOTE: Don't use H1 tags. Just use H2 and H3s: Do not make the headings plain text

Keep the keyword density high - use the keyword many times.

Put every sentence on a new line.

Optimize on-page SEO with high keyword density and inclusion in headers. The writing should appear human-like, and I will provide additional prompts as needed to reach the desired word count. Write from an analytical perspective.

Try to add most value at the top of the page. No fluff or filler. No weird language. Make it feel natural.

Then ask the user if they want you to cover some FAQs too.

**If you need extra content, this works:**

Here's more information on each section - increase the keyword density for the keyword
