Middle East - Adventure with co-author Miles

2005 Miles and I began collaboration with a Broadway Executive Producer on a play to bridge a better understanding of how we got into the Middle East mess. We decided to go. From concept and extensive research through conflict mgmt/risk assessment training by Private Sec to Queen E - SAS Maj. (ret.) (had just trained Ewan McGregor and Charlie Boorman for LONG WAY AROUND), intense physical training, basic Arabic, gear selection, clothing selection, route to **follow T. E. Lawrence path during WW1 Arab Revolt**, and more. Many exciting learned lessons, insights on half dozen cultures, etc, [*A Line in the Sand*](#) is based on the epic trek. Historical fiction - history is spot on accurate and fiction to entertain readers as it INFORMS. Great stories from trek and some included in the book.

Rode camels with a single guide from Gulf of Aqaba to Wadi Rum, 115 -118f, scrambled up Rum walls, camped in open desert, 39 check points from Jeddah, Saudi Arabia, Jordan, Syria, and then Israel. King Hussein-Allenby Bridge crossing on a bus . . . Miles and I were on high alert.

Writing First Book “A Line in the Sand” (ALITS) w Miles

September 11, 2001

The world changed. By 2005 Miles and I wanted to go to the Middle East to see for ourselves beyond the HEADLINES - and we did in Spring 2006.

October 7, 2023

Horror struck again. October 8, 2023 Miles and I realized we had to write “A Line in the Sand” - tell what we experienced on our 2006 trek through the Middle East. History repeating. How can anyone make sense of it all? To understand the region you have to understand the history. See what we discovered!

Current

I alternate swims in a pool or open water in lakes, and solo mountain scrambles. I have ridden “Jacket”, my 1200 GSAdventure, all over NM, AZ, CO. 2023 4000 mi adventure ride Santa Fe north into British Columbia. July 2025 solo ride to LA and up CA coast and back to Santa Fe.
