

3-5 CHROMEBOOK

Pledge!

You have an exciting opportunity to be part of 1:1 Learning with Chromebooks in Northwest ISD. With this opportunity comes the understanding that you will assume responsibility for the use and care of your Chromebook.

I will:

- ensure that my device is in a safe place when not in use.
- use my Chromebook at school in ways that are educational and appropriate
- contact my teacher right away if my device is misplaced, lost or broken or if I come across inappropriate content.
- keep all identification barcodes and labels on the device.
- refrain from adding decorations or personalization. (e.g., stickers, markers, etc.) to my device.
- respect myself and others in online communities.
- be mindful of my digital footprint.
- keep my passwords and personal information secure and private.
- follow all expectations and guidelines of Northwest ISD's Responsible Use Policy and school rules when using the Chromebook at school.
- think before I click or post.
- make a pledge to be fair, right, and ethical when using any device whether at home or school.

I understand that the things that I do using a school computer or network are not private and that my teachers and District staff **may review my work and activities at any time**. This means they can see all the websites I visit. I understand and agree with the above expectations.
