

Dentists (updated December 2025)

12/19/25 - **Fenton Family Dental**, <https://fentonfamilydental.com/silver-spring/>. "Love their extended hours and being able to go early in the morning, after work or in the evenings. There is a MoCo parking garage across the street." (Lisa on Garwood)

9/14/25 - **Dental and TMJ Specialists**, Frank Triana, DDS. "He is very knowledgeable with no need to oversell unneeded services. He made me a custom mouthpiece that allowed my jaw to return to its natural alignment. I went in every two weeks for him to adjust the mouthpiece. Total success. I highly recommend him." (Leslie on Brewster)

8/29/25 - **Palacios and Chen**, www.palacioschendds.com. "May have Saturday hours. In the opinion of many, and with 62 5-star reviews, you could do no better than to patronize the married couple, both of them skilled and kind, Palacios and Chen. And they are located right here within walking distance of many homes here in Indian Spring, at Colesville end of Granville Drive." (Arlene). "We see them and love them - hugely recommended. They're up front about their prices and very responsive on the phone if you want to confirm anything." (Monica on East Indian Spring). "They're great with our kids. They will submit the insurance reimbursement claim for you, which saves a bunch of time and brain space. Depends on your plan how much you get back for what services." (Abbe on East Granville). "We took a 10-year old boy there who was not accustomed to dentists and fearful, and it went very, very well." (Arlene M.)

11/22/24 - **Dr. Gary Lucomb**. 8620 Fenton St., 301-587-8081. "As a retired Army dentist, he's seen lots of different kinds of cases. He's wonderful and explains everything." (Barbara)

11/22/24 - **Dr. Frew**, www.drfeew.com/contact-us, 9604 Colesville Road, across intersection near YMCA. "I highly recommend Dr. Frew. I've been going to him for over 20 years and he's great." (Leslie on Evergreen). "Joe Frew is awesome. It's him not tech that does everything and he only has one patient at a time so usually no wait. He did some major restoration for me last year and both bridges and crowns were perfect. Plus he's a nice guy and our neighbor." (James)

11/21/24 - **The Smile Atelier**, Dr. Ramdath, 301-593-5211, thesmileatelier.com. "Dr. Ramdath is amazing and she's across the street from Blair HS." (Mike Z.) "I am also happy with Dr. Ramdath." (John on East Franklin)

11/21/24 - **Dr. Matilde Facet**, 11161 New Hampshire Ave., Suite 205, Silver Spring, 301-593-5477. "Dr. Matilde Facet has been our dentist for several years after taking over the practice of Dr. Charles Abraham, who retired. Her office is on New Hampshire near White Oak. We are happy with Dr. Facet's care. She is a thorough, meticulous dentist. My favorite story: she once sent a crown back to the dental lab three times before she was satisfied that they got it right. I think her rates are in the typical range. She has taken all our insurance. One note: she has limited hours, if any, on Fridays. It's best to call and ask what her current Friday hours are in case this is a concern." (Mark on Normandy)

1/16/24 - **Oral Surgeons in Maryland | Maryland Oral Surgery Associates**, www.mosa4os.com. "Both of my sons (aged 19 and 23) had wisdom teeth removed in 2023 at Maryland Oral Surgery Associates. We were happy with their services." (Kim H.)

1/16/24 - **Harold Landis**, DDS office of H. Landis, W. Dyzak, S. Potlouri, Georgia Ave., about 6 minutes from Indian Spring. "Great dentist! Has always given me excellent referrals to other area specialized dental care." (Ann B.)

1/16/24 - **William R Dzyak**, oral surgeon, DDS office of H. Landis, W. Dyzak, S. Potlouri, Georgia Ave. "I've seen him a few times for implants, but also he did wisdom teeth removal for our two daughters a few years back. His office is now in Boyds, Md., about 1/2 hour drive from ISCA. Office staff is incredibly helpful and accommodating if you want to make monthly payments to account (implants cost can be over \$2K)." (Ann B). "We have also used Dr. Landis for years. He's terrific. My husband goes to Dr. Dzyak for specialized work. Both are personable and thorough, as are their staffs." (Barbara on Normandy). Dr. Dzyak was great for removing wisdom teeth of two of our kids." (Bill on Evergreen)

1/16/24 - **Sumesh Potlouri, DMD**, Silver Spring Endodontics, on Colesville just across from Trader Joe's. (Ann B)

9/20/23 - **Michael Pollack, DDS**, 301-587-1610, located in the Blairs across from Giant near East-West Highway. "I like our dentist, Michael Pollack. He is friendly and handles many types of patients (including those with dental anxiety!). I've had several crowns done by him and he has seen me through two (at least!) teeth grinding devices. He has a great staff too." (Cecilia on Mintwood)

9/20/23 - **Laurel Lakes Dentistry, Dr. Bryan Kitahara**, www.laurellakesdentist.com. "Not only are he and his staff genuinely kind, he is a very skilled dentist who is very adept at avoiding pain. I had a horrific dentist growing up who didn't "believe" in giving kids novocaine (had deep cavities drilled without novocaine) and then had a nice, but very clumsy dentist here for a while. The other day I had a small cavity filled and I literally felt no fear (or pain) at all, it was like I forgot about it. They take a lot of dental insurance policies but it takes a while to schedule cleanings (they run a few months in advance at least) but you can get in to see the dentist very fast -- often the same day! -- in that evitable dental emergency (like don't eat a baguette with a temporary crown)." (Sarah on Biltmore)
