❖ Solution Tree - PLC Conference - Denver, CO

- 5th Grade Team, Literacy Specialist and Building Principal
- The Professional Learning Communities at Work® process is increasingly recognized as the most powerful strategy for sustained, substantive school improvement. This institute gives you and your team the knowledge and tools to implement this powerful process in your school or district.

For three days, you will have the opportunity to network with some of the most insightful minds in education. The presenters, all educators who have successfully led schools through the PLC process, are accessible to you throughout the event.

The program includes time for questions during the breakout sessions, a panel of experts to address questions from the audience, and time for teams to reflect and seek the advice of the presenters. At the end of team time, you will focus on next action steps, with presenters on hand to guide you.

For those just beginning to explore PLCs, this is an excellent way to build your knowledge base. For those who are already involved in deep implementation, this institute is the perfect opportunity to revisit your mission, introduce new team members to the process, and get answers to new questions.

As you delve deep into the three big ideas of a PLC—focus on learning, build a collaborative culture, and results orientation—you will gain specific, practical, and inspiring strategies for transforming your school or district into a place where all students learn at high levels.

❖ Budget Updates

- In need of a new copier for upstairs
- We are looking into purchasing a new Sharp Copier
- Funds would come from our carryover budget - \$90,000 in carryover
- \$8,810 was spent on new raidos
- We have exceed our printing budget. That budget was set in January 2024. We have been taking money from the Carry Over budget to support printing costs.
- Looking to move funds over for Professional Development that would
