

Milestone Deliverable Review Report

Deep Funding Round: 4

Project code: DFR4-IDT3

Project title: Evidence-based Health Data for AI Longevity Apps

Milestone number: 1

Milestone deliverable:

https://docs.google.com/document/d/1yZsUNwGR_brtZ3PpGYyvVCzTvr_kkzdkEHTN76o_Z0/edit?usp=sharing

Date: 26/09/2024

Status: Accepted

Feedback (Why accepted, why rejected?):

The proposer provided in detail the key challenges, existing solutions and gaps in the current landscape of AI-driven health applications as promised. More so, the research report included a report of future trends which suggest an improvement in the reliability and effectiveness of health recommendations.

If rejected, suggested changes:
