

The **Free Meals for Kids** mobile app was created, in partnership with MDE, to support summer child nutrition programs utilizing the Summer Food Service Program (SFSP). We would like to include your sites on the App this summer. Since the last day of school for your district is fast approaching, we are contacting you now to provide us with your finalized site information as soon as it is available.

The App is updated regularly. We rely on you and the MDE database to make sure the meal site information is always accurate.

Mobile App: Free Meals for Kids

Get the most out of our app

Created by Hunger Impact Partners with support from the Minnesota Department of Education to ensure children 18 and under can access nutritious meals, the sites you locate for food are updated regularly.

The Free Meals for Kids mobile app helps families and kids find free meals at Minnesota schools and other sites.

1. Download the Free Meals for Kids app at [Apple App](#) or [Google Play](#).

2. Use the app to find the nearest site providing meals and meal packs by GPS.

3. Click on the nearby site and use the Meals Updates tab for more details.
