

THE FREE-HEART EXPERIENCE

GUIDANCE FROM THE MESSENGERS

*Creation of
Karen Wilson*

As we move from the Free-will Experiment to the Free-Heart Experience, we are aware of a changing of the guard. There is a necessity now for us to choose the Light and the clarity of our deepest evolution, rather than to attend to the pulse beat of the linear world as it strives to fortify its structure.

Since we are at an entirely ‘new’ place in our unfolding, The Messengers request your presence at a Zoom call to more clearly define the posts of the ‘new’ guardians, what they bring to us, and how we can best implement their wisdom and presence in our world as it turns towards Unity.

This call at the completion of 2022 will support our understanding of the upcoming time from 12/29/22 to 6/14/25, when the threshing and turning over of existing structures will be at their most intense. With the blessing of foresight, we can prepare, stabilize, fortify and extend our inner resources to establish a consistent and shared vibration to counteract the specific frequencies that intrude into and fray our intentions.

As this is a clear time for common-unity, we offer this experience and wisdom to more fully support each of us as we step into our part in the Creation of the New Earth.
