

SI: Better advice, more revenue?

Hey Matt,

Recently I came across your Instagram page and saw your Lomi Composter which was quite an interesting post, So I had to take a quick look at your Website, and I was surprised about the many positive reviews about your product. It is an absolute game changer in the household.

I can see how it helps to reduce so much waste and gives you nutritional plant food instead.

There is a BIG bright future for your company

But..

While I was looking over your site I came across some Ideas on how we could scale up your revenue simply through your newsletter and also get more people to sign up for it.

This is my best guess from the outside for now, I would love to get insights from a quick call with you, so I could handle based on your situation to help you in the best way possible.

I thought you would be interested in this and wanted to let you know.

I know you're a busy man so If you're interested just reply to me with a short Yes or No

Best Regards

Emre
