INTERNATIONAL CONFERENCE ON THE HISTORY OF CHEMISTRY

ALMA MATER STUDIORUM
UNIVERSITÀ DI BOLOGNA

ORGANISED SESSION SUBMISSION FORM

(only one organised session per main organiser*, not including co-organisation and organisation of a roundtable)

Please note that organised session submission must include both the session abstract (this form) and the abstracts of the individual papers (use the form to submit papers). Session organisers will compile the whole proposal in one document (including all paper abstracts) and submit it as one single file.

The sessions should include about 4 to 6 papers, including commentary if so wished. At the discretion of the Steering Committee, individual papers on a similar or close topic may be ascribed to a relevant organised session.

The aim of the ICHCs is to foster dialogue and facilitate communication between different communities interested in the history of chemistry and the molecular sciences. Organised sessions should therefore reflect this diversity by gathering contributors from different institutions, countries and projects. Gender and career stage balance is also strongly encouraged. Organisers may want to use a call for participants to mailing lists, and particularly CHEM-HIST, to set up their sessions.

At the discretion of the Steering Committee, and with the approval of the session organisers, relevant stand-alone papers may be assigned an organised session.

(*) It is possible to be co-organiser of more than one organised session, if you are not the main organiser of more than one. In case of co-organisation, the main organiser's name will be underlined.
