

You push her onto the bed and practically rip off the clothes covering the object of her desire, the fat, coal-black, canine cock that's planted between her legs, and the furry ball sack below it. You don't wait around either, pulling off your own [char.gear] before straddling her.

Her cock throbs between your thighs as you wrap your fingers around it. "Gonna have some fun with this fuckstick with yours," you murmur, playing with the tip.

Instead of just sitting on it you bring it to your lips and give it a quick kiss before wrapping your lips around the tip. A shot of pre lands on your tongue, which you swallow after rolling it around on your tongue. Her pre tastes salty and musky, and you already want more. Taking it deeper you enjoy the sound of her moans and feeling it pulse inside your mouth.

Another spurt of pre is deposited on your tongue, and you swallow it down hungrily. Pulling off of her cock you scoot backwards and bring your face to level with her balls. Even before your tongue touches her sack you can tell how much stronger her taste is between her nuts. Mouth watering you extend your oral muscle and start licking her balls. The taste hits you hard, making you shiver. Taking them both into your mouth you almost feel like you're getting dizzy tongue washing her musky sack.

You can't take it anymore! You pull her balls out of your mouth and swing your leg over her and position the cock under you. Both of you moan out as you take her to the hilt in one go. Immediately you start riding her, slamming your hips down on her.

"Fuck, If I knew you'd be willing to take my dick I wouldn't have bothered to fight you," she says jokingly. Grinning smugly you reach behind you and grip her balls. Giving it a tight squeeze you're rewarded with a strong throb from her cock, which makes her prick press against your g-spot.

"Yeah, you're loving this, you fucking masochist slut," you chuckle as you reach and give one of her breasts a light slap as your [char.ass] connects with her hips. "Don't try to deny it," you demand as you grab her balls again and squeeze them tighter this time. You don't even need to hear her admit it as her dick does all the talking. A heat blossoms inside you, it's not cum, but she shot a lot of pre inside your [cha.vagOrAss].

Grabbing her shoulders you start riding her faster, trying to fuck her into the bed. Naliaka's hands aren't idle during this all. Her claw tipped fingers take hold of your [char.ass] and start kneading it. It's not painful, but her sharp nails still make you hiss through your teeth. Noticing your reaction she grins and deliberately presses them inwards, poking them into your glutes. She relents before she actually hurts you, you're the alpha tonight, so you're ultimately calling the shots.

Her thick canine prick throbs inside you, signalling to you that she's about to let it all inside you. "You better not cum before I tell you to," you order. She bites her lip as she tries her best to hold back.

[Pussy|Dick|Both] You press a finger to your clit and start gently rubbing yourself. Fingers soaked in the mix of your feminine arousal and her pre you pinch it between two of them and

gently twist it. Your pleasure soars as you play with your feminine button, and if you continue this up you'll cum soon.

[You wrap your hand around your [char.cock] and start stroking it. It doesn't take long for you to be leaking pre from the tip. Squeezing the tip softly and gathering some of the pre you smear it along your length, making your hand move even faster.

[One hand on your dick, other on your clit you start pleasuring yourself from both ends. It won't take you long to pop like this. Pre is already drooling down your length, and the hand working your clitty is soaked.]

"You can cum after I do," you gasp out as you're reaching your peak. Her hands are gripping the sheets as she fights back her own orgasm. As you slam down on her member you feel her knot throbbing, ready to lock you two together.

Before it's too late you thrust down as hard as you can, and as you do the breeder's bulb at the bottom of her prick swells and stops you from pulling out. The strong throbbing through you, and the knot swelling pushes you over the edge.

[Dick in ass] Your ass ripples as the fat knot stretches you wide and sends mixed signals of pleasure and pain into your brain. [Dick|pussy|both] Your cock flexes and shakes as it shoots ropes of [char.cum] onto her stomach, painting it [char.cumColor]

[Your cunny drools feminine juices as it clenches around nothing, trying to milk the cock that's currently in your ass.

[char.girlCum] splatters her chiseled belly, all the while your [char.cum] shoots over it, and lands on her breasts, thoroughly marking her with both fluids.

[Dick in pus]Your cunt clenches, milking her balls for what they're worth. Your juices gush from the little space between your folds and the knot, soaking her fur covered balls in your girl cum. [Cock] The pleasure reaches all the way to your cock, making it twitch and spasm as [char.cum] at first weakly leaks from the tip before shooting forward with enough strength to land on Naliaka's face.]

The moment you cum Naliaka lets go and floods your [char.vagAss] with her alabaster seed. [dick in pussy]It flows into your womb, making you shiver in a wonderful way as the most intimate part of your body is filled to the brim.]

You place a hand on your stomach, feeling it swell from her massive output. The warmth radiating from your middle makes you want to just stay there for a while, and with her knot locking you together you really don't have a choice. Closing your eyes you make yourself comfortable and lay on her.

You really don't know when you fell asleep, but Naliaka isn't in the bed anymore and a decent amount of her spunk has leaked out of you. You put your [char.gear] back on and get downstairs.
