

Job Title: Intern, Online Course development

Company: Dr.Reddy's Foundation

Location: Hyderabad

Duration: 4 weeweeks

Working Hours: 9:30 am - 6:00 pm

Position Overview:

Dr.Reddy's Foundation is seeking a motivated and enthusiastic intern to join our Course Development Team to create learning content for the learning app "Skillfy", which secured about 98,000 enrollments with in 2 years of app release.

This is an excellent opportunity for individuals interested in leveraging their creativity and knowledge, and looking to gain first-hand experience in the field of digital learning. The intern will have the opportunity to collaborate with the team in creating engaging and dynamic digital courses.

Eligibility Requirements:

- Proficiency in English is a must.
- Familiarity with Canva or other similar graphic design tools.
- Open to learning and adapting in a fast-paced work environment.

Responsibilities:

- Collaborate with the course development team to design and develop digital learning content.
- Assist in the creation of visually appealing presentations and course materials using Canva / Vyond / other softwares.
- Participate in brainstorming sessions and contribute innovative ideas for course development.
- Create the assessments for the video lessons and upload the courses on the self learning app Skillfy.
- Review, proofread, and edit course content to ensure it meets quality standards.
- Ensure adherence to project timelines and deliverables.

Application Procedure:

Resumes of the interested candidates can be shared to the email
geetharaniborra@drreddysfoundation.org

At Dr.Reddy's Dr. Reddy's Foundation, we encourage all qualified individuals to apply,
irrespective of race, gender, disability, or any other protected characteristic.
