 - FDO Update

- Antonio Murdaca stepping in as the new Red Hat rep and taking over the FDO project
 - Fledge Update
 - Martijn introduced himself as Chief Product and Technology Officer at Helin, explaining that they build an edge AI platform and have been working with Fledge as one of their applications. He announced that Helin wants to take over the Fledge project following the shutdown of the company that originally initiated it, with the goal of keeping it alive and improving it. Erik commented positively on the news, mentioning that he had recently seen discussions about Fledge's status on the Slack channel.
