

Withdrawal Fees & Tuition

Budgets and teacher contracts are established according to students being enrolled for the entire school year. ***If a student withdraws for any reason, other than military orders, withdrawal fees and tuition must be paid.*** Official transcripts and records will not be released until tuition and fees are paid in full. ***Students receiving scholarships are also required to pay withdrawal fees and tuition.*** All scholarship funds will be applied after the correct amount has been returned to NCSEAA with the family being responsible for the remainder of the balance.

If tuition was paid in full to receive the discount, then the discount amount will be reapplied to the total owed.

See charts below for withdrawal fees and tuition. Charts are per student, so if a family has two children they will owe twice the total, three children will be triple the total, etc...
