Welfare not Warfare

Welfare not warfare x2
Housing, safety, justice and care
Not bombs, borders and billionaires

How is it they always find billions for war
When there's no funds for hospitals, schools or the poor?
Cuts made to benefits and foreign aid
While millions at home and abroad are betrayed

Chorus

Migrants and carers, disabled and trans
Don't let them divide us, united we'll stand
The rich still get richer while we fight for scraps
There's no friends in Whitehall for our working class

Chorus

Mass murder abroad, social murder at home
Tax cuts for the wealthy while wages stay low
Another world's possible if we persist
Shoulder to shoulder let's stand and resist
