

## Welfare not Warfare

### Welfare not warfare x2

Housing, safety, justice and care

Not bombs, borders and billionaires

How is it they always find billions for war  
When there's no funds for hospitals, schools or the poor?  
Cuts made to benefits and foreign aid  
While millions at home and abroad are betrayed

### Chorus

Migrants and carers, disabled and trans  
Don't let them divide us, united we'll stand  
The rich still get richer while we fight for scraps  
There's no friends in Whitehall for our working class

### Chorus

Mass murder abroad, social murder at home  
Tax cuts for the wealthy while wages stay low  
Another world's possible if we persist  
Shoulder to shoulder let's stand and resist
