Decriminalize UW

#GeorgeFloyd #Breonna Taylor #CharleenaLyles #JTWilliams #TommyLe #ShaunFuhr #MannyEllis

As members of the University of Washington (Seattle) community, we call on President Ana Mari Cauce and Provost Mark Richards to take immediate action to ensure the health and safety of people on campus, particularly Black and other persons of color, by protecting them from police violence by 1) the Seattle Police Department and 2) the UW Police Department.

The national Movement For Black Lives has given the UW community an invitation to uphold our values of justice, equity, and anti-racism, and immediately divest from the Seattle Police Department (SPD) to protect our Black community members. In 2011, The US Department of Justice investigated SPD and found a pattern of excessive and unconstitutional force, which forced the City into a consent decree. The City is seeking to be released from the agreement despite repeated lack of accountability for police killings of Black residents -- most recently, Charleena Lyles and Shaun Fuhr.[1] We bear witness to the ongoing harms that police violence enacts against Black lives. In the interests of public health and safety, we call on the University of Washington to divest from and cease any contracts with the Seattle Police Department.

Specifically, we call on UW to break all ties (both informal and formal in the form of contracts, agreements, and MOUs) with Seattle Police Department by taking the following steps:

1) Immediately stop handing over people detained by UW Police Department to local law enforcement.[2]
2) Stop using SPD to respond to public safety needs, including referrals for welfare checks under the Safe Campus program.

---

[1] This statement was correct when the petition launched on June 2, 2020. After 6 sustained days of protest against Seattle Police Department violence, the City withdrew its request to be released from federal oversight and reforms. *See:* Miletich, S, Beekman, D, Hellman, M, et al. (2020) "As complaints pour in about police at Seattle protests, city will withdraw request that could lift federal oversight." *The Seattle Times*, Published June 3, 2020

[2] The original demand was specific to Seattle Police Department. We have closed the loophole in which UWPD drives students / community members directly to King County Jail for booking.

3) Stop using SPD for additional security for any events, including football games, concerts, and ceremonies.[3]

UW Seattle also has its own police force, UW Police Department (UWPD), that intimidates Black and other members of our community by patrolling with guns and dogs. The September 2016 UW-commissioned "independent investigation" described racial profiling, excessive force and a failure to de-escalate at every opportunity without recommending policy changes. While the UW Concerned Faculty group responded to this report by calling for police accountability reforms in 2016 and 2017, the administration did not act on their recommendations. Reimagining Safe Campus requires a rethinking of policing itself in ways that do not rely on state violence. This will entail the effective redesign of training, assessment, and career development programs for UW Police.

Specifically, we call on UW Seattle to reimagine a Safe Campus as follows:

1) Disarm UWPD officers.
2) Ban the use of police dogs, which many communities of color in the US associate with the terror of state violence.
3) Publicly commit to not hiring former police officers with disciplinary records as UW Police Officers.[4]

The issues we raise are not specific to UW Seattle. We support all related efforts at UW Bothell and UW Tacoma to protect our Black community members. College leaders across the nation, notably University of Minnesota, have taken decisive action to divest from city police departments. We invite UW leadership to join this national movement and be on the right side of history.

Signed,

Faculty (including Lecturers)

Jayadev Athreya; Department of Mathematics and Department of Comparative History of Idea
Rachel Chapman; Department of Anthropology
Angélica Cházaro; School of Law
Jean Dennison; Department of American Indian Studies
Megan Ming Francis; Department of Political Science

[3] On September 9, 2020, President Cauce committed "not to contract with the Seattle Police Department for security on our campus for football games or any other events on campus."
[4] On June 15, 2020, President Cauce committed to "not hiring any officers who have previously been disciplined for any ethics, use of force, violence, bias, and any other serious violations."

Christopher DiGiusto, Michael G. Foster School of Business (2018)
Davis Boswell, College of Education, 2018
Mayra Rangel, Political Science and Latin American Studies, 2010. I was harassed by security forces when I was walking with my protest sign to a May 1st rally in 2009 to red square. They threatened to arrest me and other students of color who were peacefully protesting immigration injustices and worker's rights. This came out out in a very biased story in the UW newspaper.
