

DETAILED ABSTRACT

<PROJECT TITLE>

Team Details

Team ID: <Your team Id>

Leader's Name: <Your team leader's name>

Leader's E-mail: <Your team leader's e-mail>

PROBLEM STATEMENT

< Specify your chosen problem statement >

IDEA

< Write in **detail** your **idea** to solve your identified problem under the problem statement. You are expected to elaborate on your idea which you submitted during Idea Submission. >

WORKING

< Specify in detail, the **basic working of the project.** >

HARDWARE (if applicable)

< Explain the use of **each hardware** in detail and why you chose it. Include as many hardware options as you feel are required for the project. >

1. **Hardware_item_1** - Explanation
2. **Hardware_item_2** - Explanation
3. **Hardware_item_3** - Explanation

SOFTWARE (if applicable)

< Explain the use of **each software** in detail and why you chose it. Include as many software options as you feel are required for the project. >

1. **Software_1** - Explanation
2. **Software_2** - Explanation
3. **Software_3** - Explanation

DESIGN (Optional)

< Depict the design of your project, if any. This field is not mandatory. >

IMPLEMENTATION

< Explain the implementation of the project, including the major modules/sections that will have to be used, their availability. >

SOCIAL IMPACT

< Explain in detail, how the project will impact society. >

BUSINESS MODEL & FEASIBILITY

< Explain in detail, the business model and the feasibility of the project. >

COST

< Please mention the cost factors of each of the requirements of the project. >

Sl No.	Item	Quantity	Cost (in Rs.)
1.			
2.			

FURTHER ADVANCEMENT

< Specify how you plan to advance further with the project. >

REFERENCES

< Specify the references for your project in points, along with the URL to the source. >
