Unit Plan
Unit C: Metabolic Processes

Date/ Month	Lesson	Hrs
Week 01 Feb 23rd- 27	Review of Metabolism and Energy Introduction to Aerobic respiration Lesson on Aerobic respiration - Glycolysis, pyruvate oxidation and krebs cycle	07
Week 02 March 02nd- 06th	Review of krebs cycle Lesson on: - Electron transport chain and chemiosmosis - Net ATP produced -Anerobic pathways ; fermentation Review for Unit test	07
March 12th	**Unit 02 Test**	**01**
Week 03 March 09th to 13th	Photosynthesis: An introduction Lesson on: -Light dependant reaction -Light independent reactions **Assignment Discussion**	06
	Total Hours	**21**
