

LabWeek Field Building

10th to 15th of June

Protocol
Labs

Join us for LabWeek | Field Building, June 10th to 15th, in California!

Instigated by Protocol Lab and curated by Foresight, **LabWeek | Field Building** assembles leading individuals and teams from frontier science to drive progress. This edition will be set within [Edge City Esmeralda](#), a temporary city built in Healdsburg, CA.

The **program** focuses on 4 main tracks: **Neurotech, WBE, BCI, Biotech & Longevity, Human-AI Cooperation, AR/VR/Mixed Reality** + transversal topics such as Robotics, Nanotechnology, Governance, Decentralized Science (DeSci), Biodiversity, and Space Exploration.

Plenty of room will be made for unconference-style sessions!

Join this unordinary experience and container, designed with purpose to create valuable human and intellectual connection. **Apply via Typeform:**
