Friday (10/17/25)	Lesson 8.3 - Ethics: The USA vs. International (Part 2)	Slides Slides (Español)

Learning Intentions this Week

By the end of Unit 8, I will be able to:

- Research the concept of social responsibility and ethics as important components of business.
- Develop a hypothesis for why businesses must increasingly consider their impact on society when making decisions.
- Write a reflection paper summarizing observations; specifically, evaluate how businesses benefit from engaging in responsible business practices, including benefits to the community, the environment, the marketplace, and the business/workplace itself.
