

WheelSafe Mobile App Privacy Policy

This privacy policy governs the use of the software application Wheelsafe Mobile App and Watch app ("Application") for mobile devices.

What information does the Application obtain and how is it used?

The application collects data on user movements when a potential fall is detected. Movement information is stored locally for algorithm improvement.

How do you handle location data?

No location information is stored.

Can users see their personal data?

No personally identifiable data is stored. Movement data is stored on the user's device in text files.

Do you collect, store or process personal data?

The application collects movement data and stores it locally.

Do you share personal information?

No personal data is shared.

Do advertising companies collect data?

No. The Application does not share data with advertising companies.

Do you use vendors or analytics providers?

No.

Questions.

If you have any questions about the Application or the data handling practices related to such Application, please contact us at wheelsafe@gatech.edu.
