

WELCOME BACK!

Just a few words to welcome you back from the summer vacation to Fairgrounds Middle School for the **2022-2023** school year..

My name is **Jeanette Chasin** and I am the **social worker at Fairgrounds** and will be available during the school year for help and support for students and families.

You may ask, what can I be helpful with? I am available to help with stress, coping with adjustment to middle school and the new routine, anxiety about coursework and peer relationships, and many other things. Sometimes a student just needs a “go to person” and that can be me or the school counselor.

I can make a plan to meet with students as needed once school is in session. I offer lunch groups to allow for an open forum to talk about what is on our minds.

I am available for parents/caregivers/guardians to help with community resources and guidance for community outreach needs. We have a very active clothing closet run by Catie’s Closet and we have a small food pantry at FMS. I am happy to help our families connect to other community resources in Nashua.

I look forward to this school year and working with you !
