

7-YEAR STORY EXAMPLE (JOHN PETERSON)

It has been done. Our Seven-Year Narrative.

It's December 31st, 2027. I'm waking up in our beautiful home on two acres in Templestowe, Victoria. I turn and look at my Angel, my wife, my life partner and how beautiful she is inside and out. Getting out of bed and leaving her side each morning for an early workout has been my greatest challenge to master, for I am still amazed that God's greatest gift has chosen me as her life partner. Her kindness and concern for others forever set the bar higher for me than my consciousness could ever do.

Our beautiful home was built to accommodate up to 16 people, with 8 double bedrooms, four bathrooms and toilets, two indoor kitchens and one outdoors, overlooking the tennis court, basketball half-court, and magnificent swimming pool with BBQ, bar & entertainment area.

Our "Family First" policy has attracted all of "our children" to hang with us again this summer, and during this time of year means, it's always a guessing game to see how many of them stay over each night in the spare bedrooms. As such, I'm extremely excited to return from my early workout, put on some gentle but festive and happy music and start breakfast preparations. One of my fondest times of the day is our morning and evening meals together. They've become a bit famous, and many family, friends, clients and influencers talk about the love, joy, and energy they experience when they stay with us.

Our favourite thing (Billy & I) is how our special haven allows us to create intense immersions for people. Some of these are paying clients from all over the world (including many famous leaders and celebrities and other healers), and others are for our family, friends and communities were involved in.

Our children now range from 5 to 40+ years of age. They love hanging out, playing tennis, table tennis and billiards in the games room, and cooling off in our glorious swimming pool, which has year-round heating for all seasons. Our Youngest children are now 5 and 7 years old. They have been a magical inclusion in our lives and the lives of our other older kids. They have enabled Luke, Adam and Jordie to realise the value (and values) of good parenting and brought Zaya, Noah and Lily closer together in their early 20s, providing a foundation of love, realisation and acceptance for all of us.

Our business investments turnover >\$50M p.a. and produce more than \$1M per annum in dividends and profit share. The BP Business School has become the most coveted business advisory and coaching affiliate system in the world. Billy and I have mastered the balance of living locally and yet having a global impact, making short trips to champion important projects and support our affiliates worldwide. We are never apart more than just a few nights each month, and the world finds us more appealing as a couple rather than as individuals. We have re-imagined what being a "power couple" means as a leading example of being educators, coaches, mentors, and socially conscious entrepreneurs.

Our Best Practice brand has become a global franchise and is highly sought after by accountants, bookkeepers, coaches, and affiliates. Entrepreneurs and business owners at all stages of their lives (personal and business) provide advocacy and testimonials that we are changing more lives than any other organisation in human history. Our philanthropic projects are receiving global recognition. We are saving millions of lives, not just changing them.

John's eight years of focusing on health and fitness have included mastering his ideal weight of 82 kg and sustaining this for the last 7 years. We have boundless energy and maintain daily success habits, including meditation, mindfulness, appreciation and gratitude, and continuous learning and personal growth. We ground ourselves with the earth and constantly improve his spirituality, forever channelling these higher sources of energy and guidance and bringing them into being. Also, learning how to run again (following the "Chi Running" method), John has completed 14 marathons (two per year) from 2021 – 2027. We feel blessed to run in marathons worldwide, integrating marathons with our philanthropic and business interests travel.

Restructuring BP's core business in January 2020 created so much free time that it fast-tracked a new master plan for the JPBP franchise (new master structure). We have published 14 new books and productised an enormous library of online resources, creating a portal and pathway for many contributors to participate and benefit from. Our passion for each other is only matched by our passion for learning, improving, innovating, creating, teaching, and transforming lives for any that wants and needs help worldwide.

Our combined businesses generate more than \$100M per annum and pay us more than \$5M per annum into our family trust.

Billy's first book became a Hollywood blockbuster in 2025, and the royalties were more than USD 100M. We used these funds to support healing programs around the globe, all locally owned joint ventures with specialists drawn to the Billy Boss brand promise to heal and transform the lives of people recovering from abuse.

Billy's brand has grown and expanded into health and fitness, cooking shows and recipes, meditation products, emotional healing and intimacy, and Billy has her TV show that interviews celebrities and other courageous people willing to speak out and inspire victims of abuse. Guests on her show have included Oprah, Dr Phil, Tony Robbins, Bill and Melinda Gates, Prince Harry and Meghan, Arianna Huffington, and many others on our bucket list.

Our Melbourne team are teaching BP Partners around the world how to have maximum impact on transforming the lives of business owners, and we have millions and millions of subscribers supported locally by the best and most passionate agents and affiliates in the world.

Our children look to us for guidance in all areas of their lives. They are so proud of us that they often catch themselves re quoting our teachings and quotes to their friends and are grateful every day for being part of our family.

We remain forever grateful, humble, grounded, and intertwined in our love and respect for each other. Our love is the most powerful and impenetrable force that has and will continue to stand the test of time. Our attraction to each other, healthy intimacy and affection for each other inspire millions of couples around the world to work together on their relationships, their family values and their roles in their children's lives and their communities.

Today is December 31st, 2027, and all of this has been achieved.
