INTRODUCTION
Introduction
Journal articles consist of Introduction, Literature Review, Research Methodology, Results and Analysis, Conclusions, and Bibliography. Journal articles are written on A4 paper (21cm x 29.7cm) and use Normal margins. Journal articles are written using Times New Roman font, size 12pt, spaced 1 and justified. Journal article submissions must be in MS Word format. The number of pages of journal articles is a minimum of 4 pages and a maximum of 8 pages. The column used is one column only.

Research purposes
The journal articles submitted will be subject to a review process in the first stage of selection which includes the article format and the Turnitin test results before proceeding to the next stage.

The plagiarism process uses the plagiarism tool, Turnitin. Turnitin yield limit on an article is 30% where for each source the maximum percentage of similarity is 4%. If the article exceeds this limit, the author will be asked to revise the article until it meets the Turnitin limit. AAMAR manager will contact you via e-mail aamar@polines.ac.id. Please

check your inbox and spam folders so you don't miss the next step. Journal articles that are not suitable will be rejected by the AAMAR Manager and please re-submit the revised article by resubmitting it in OJS**.**

LITERATURE REVIEW

Journal articles written in English. In making points, please do not use bullets but use numbers such as 1, 2, 3, etc.

RESEARCH METHODOLOGY

The title of the section is written in Times New Roman Capital, 12pt, Bold. While the title of the subsection is written in Times New Roman, 12pt, Bold. Titles of sections and subsections do not use numbers. Can be completed with a chart or schematic illustrating the implementation steps.

RESULTS AND ANALYSIS

In this section, the results of the research are explained and at the same time a comprehensive discussion is given. Results can be presented in the form of images, graphs, tables and others that make it easy for readers to understand. The discussion can be carried out in several sub-chapters.

The letters in the table content use Times New Roman, 10pt, spaced 1. However, the font size can be adjusted but still easy to read. Likewise, the image size can be adjusted so that it remains easy to read.

CONCLUSION

Provide a statement that what is expected, as stated in the "Introduction" chapter can eventually lead to the "Results and Discussion" chapter, so that there is a match. In addition, the prospect of developing research results and prospects for the application of further research can also be added (based on the results and discussion).

BIBLIOGRAPHY

Bibliography is recommended to use a reference management application, such as ENDNOTE or MENDELEY. The bibliography is displayed at the end of the article using the APA-Style format (available at https://apastyle.apa.org/) and sorted alphabetically from the main author's last name. Times New Roman 12pt, with hanging format 10mm. The bibliography attached to the Bibliography must only be listed in the reference marked with the author's last name and year, as an example (Kotler, 2009). Authors are not allowed to refer to wikipedia and web pages whose credibility is not trusted. The following is an example of writing a bibliography using APA-Style:

Author's Last Name, First Name Initials. (Publication Year). Book title. Publisher City: Publisher Name.

Author's Last Name, First Name Initials. (Publication Year). Journal article title. Journal Name, Vol.(publishing number), page number.
