

Create a Conscience Quiz

How do you follow your conscience?

Create a Google Form or similar quiz, with a range of situations and choices for people to make in those situations. Answers must include at least one option which demonstrates a good conscience.

Once you have created your quiz, share it with 5-8 students in your class or hub, and then review answers with the students who have completed it. Get the students to feedback on how well they are forming a conscience.

If you like you may use the Google Form template below to get you started. Make a copy and then make it your own by adding your own ideas.
