Other Types of Animations:

You may commission other kinds of animations from me. For example, animations that are not 1 second loops or built up from that. An example of this would be something like this: <https://www.furaffinity.net/view/37031674/>
The pricing for these will be as follows:

1 second long base price of the tier you would like and then the same additional scene extra costs. (+\$3 for every extra sketch cel, +\$7 for every extra colored cel)
