Unit 11 The Role of Error - Exam Review Questions

1) *Interference* from the learner's L1 is the first reason that language learners make errors. What happens when *interference* occurs? (The first part of the answer is provided.)

Interference occurs when...

2) *Developmental errors* are the second reason language learners make errors. Why do learners make *developmental errors*?

3) What is *overgeneralization*?

4) What is a learner's *interlanguage*?

5) What do errors show us about the learning process going on in a learner's mind?

6) Correction is helpful only when learners are ready, when they are developed enough to understand and use the corrections. If the time is right (learners are ready for correction), there are three ways teachers can help learners develop their interlanguage. What are those three ways?

A.

B.

C.

7) Explain what a fossilized error is, and give an example of a fossilized error in your own L2 language learning.
