

LA-1011

2 in 1 LAN Tester & Multimeter

The tester is a newly designed and very practical tester that can easily read the correct pin configuration of 10 Base-T cable(category 5), 10 Base-2 cable(coax), RJ45/RJ11 modular cables, 356A, TIA-569A/568B and Token Ring cable by comparing one transmitting end to the corresponding receiving end. With the remote kit it can test cables installed far away either on wall plate or patch panel. It is easy to verify the cable continuity, open, short and cross-connect. It is affordable, so you can benefit the most.

Features:

- can test the correct pin configuration of 10 Base-T cable, 10 Base-2 Thin Ethernet cable, RJ45/RJ11 modular cables, 356A, TIA-569A/568B and Token Ring cable etc
- With remote kit it can remotely test cables up to 300m away either on wall plate or patch panel
- Can test the ground wire
- Measure DC/AC voltage, DC/AC current, resistance, continuity & diode
- Complete with test leads, LANtest remote terminator, 9V battery, gift box and carrying case

Function	Max Range	Basic Accuracy (%rdg + digits)
DC Voltage	600V	$\pm 0.5\%$
AC Voltage	600V	$\pm 1.2\%$
DC Current	200mA	$\pm 1.5\%$
AC Current	200mA	$\pm 2.0\%$
Resistance(Ω)	20M	$\pm 0.8\%$
Continuity test	Beeper if less than 100Ω
