

HEALTHIER HENS

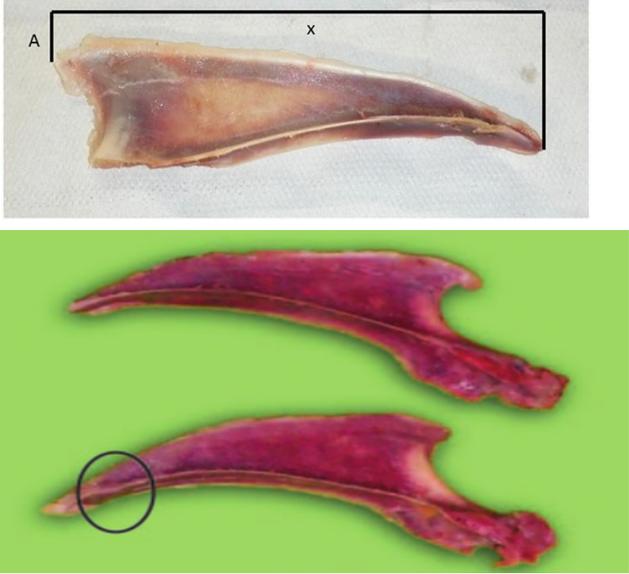

Post-post-test survey to evaluate the impact of Healthier Hens Workshop for Hen Farmers in Kenya

This post-test survey implemented by Healthier Hens seeks to evaluate the impact of the Healthier Hens farmers' workshop including the application of new knowledge and education shared on Hen Welfare topics. ***This survey is for exotic layer hen farmers only, not Kienyeji or Improved Kienyeji.*** Your participation in this study is completely voluntary and highly appreciated. Please note that by participating in this survey, you are giving your consent to participate, and your responses will be collected anonymously and confidentially handled.

The survey is not aimed at getting a right or wrong answer but to evaluate your knowledge, perceptions and actions on questions asked. Therefore, please let your answers be sincere, from your own personal perspective/experience. Do you have any questions or comments?

S/N	VARIABLES	RESPONSE OPTIONS
