

## RESOURCES

### Democracy

[Move Fast and Support Things: Responding to Democratic Openings - Carnegie Europe - Carnegie Endowment for International Peace](#), 2022 Dec

[Executive summary | Building Trust and Reinforcing Democracy : Preparing the Ground for Government Action | OECD iLibrary \(oecd-ilibrary.org\)](#), 2022 Nov

This OECD publication sheds light on the important public governance challenges countries face today in preserving and strengthening their democracies, including fighting mis- and disinformation; improving government openness, citizen participation and inclusiveness; and embracing global responsibilities and building resilience to foreign influence. It also looks at two cross-cutting themes crucial for robust, effective democracies: transforming public governance for digital democracy and gearing up government to deliver on climate and other environmental challenges.
