

# Governance Team Roadmap

Note: This roadmap is flexible and evolving. If a feature is absent from this roadmap it doesn't necessarily mean we aren't interested, it could just mean that no one has mentioned it yet or that no one has volunteered to do it. Projected time frames will also change as people step up/down to/from projects.

Right click on a table row and choose Insert row (above or below, doesn't matter) to add a new item to the roadmap.
